### REALTY MEN OPEN NATION MEETINGS

Fifteenth Yearly Convention Is Launched, With Nearly 5000 Delegates in Attendance at the Auditorium

Small Group Sessions Held During Afternoon, With Problems of Industry Discussed; Extend Greetings

SAN FRANCISCO, May 31.—The fifteenth annual convention of the National Association of Real Estate Boards opened today, with between 3000 and 5000 delegates already in attendance. Approximately 2000 were present at the Civic Auditorium for the beginning of the ceremonies.

The large convention hall was artistically decorated, forming a setting of California vineyard and a huge canopy of Indian drawn work stretched across the entire ceiling of the mammoth auditorium.

The convention proper was opened by President Irving B. Hiett, who immediately called upon Rev. James L. Gordon, D. D., to deliver the invocation.

An address of welcome to California by Governor William D. Stephens, in which he dwelt at length upon the Japanese problem, followed. The governor declared that the problem was one of national significance. It was not confined to California, he said, but was an American problem and one that must be immediately solved. He said it was a matter not for war and discretion and powerful settlement. It reminded him of the time when the Orient and Occident cannot be fused and that there was no room in the United States for divided allegiance.

WELCOME FOR S. P. EXTENDED BY H. P.

A welcome on the part of San Francisco was then extended by Mayor James Rolph, who declared that the city was proud to have the pioneers who built the town and make the new settlement, paving the way for commercial prosperity.

On behalf of the San Francisco real estate brokers, Colbert Coldwell, president of the San Francisco Real Estate Board, made an address of welcome. He said that the city was proud to have the pioneers who built the town and make the new settlement, paving the way for commercial prosperity.

Charles F. Stern, former state bank commissioner, and now a Los Angeles banker, addressed the gathering on the subject of California. He dwelt upon its business, development, its sports, pleasure and its future. He called attention to the many natural advantages possessed by the state and referred also to the pioneering done by its boosters, where these advantages were lacking, illustrating his point by the reference to the building of the Los Angeles harbor.

The annual report of President Hiett, an address by George C. Boardman, chairman of the convention committee, and reports of the vice-presidents completed the morning session.

SMALL GROUPS HOLD AFTERNOON SESSIONS.

This afternoon the convention was split into small groups for the discussion of problems confronting the industry of real estate.

By special train, by steamer and by motor caravan the visitors have been arriving during the past 24 hours. The "end of the trail" motor caravan, conceived by the Los Angeles board and executed with the co-operation of the San Francisco branch, and other realty organizations along the route, arrived last night with nearly a thousand delegates. A majority of them from the east of the Rockies.

Among the men thronging the local hotel lobbies are the foremost real estate operators of the country, who have left their business to lend their best efforts to reach a solution of the many and perplexing problems of the profession that have to do with the fundamentals of American life, home building and financing, farm land settlement and commercial building development.

OAKLAND DELEGATION PLAYS IMPORTANT PART.

Colbert Coldwell, president of the San Francisco Real Estate Board; George C. Boardman, chairman of the convention committee, and George E. Belvel, chairman of reception, were in charge of the throng of San Francisco and East-bay members, each of whom was constituted host and felt fully the obligation of carrying to the visitors a hearty western welcome with a hearty western smile.

The Oakland delegation played an important part in the welcome of the visiting delegates.

"We are sure that the 1922 convention will achieve wonders for the association and that it will be the most successful conference in the history of the organization, California sure knows how."

That was the statement of practically every national officer of the association and nearly every eastern delegate as they stepped from their trains or automobiles upon their arrival in San Francisco. That enthusiasm will be the keynote of the convention was indicated by

### THREE MINUTE TALES

by AD SCHUSTER

A RETURN

WHEN Calvin Blake saved his first \$500 the world seemed to wait him as a conqueror. He packed the money in new currency in his pocket, planned to go to the city to make his fortune, and returned a proposal to deliver into the care of Millicent Mills. A methodical young man, he gave time for the consideration of his problems, sent his best suit to the cleaners and set the date for the proposal for the evening when it should return. He whistled through his fingers as he read the ads in the city paper and drew down his brows to the expression of a determined young business man. Calvin knew just what he would say when he stepped into an office to ask for employment and he felt himself so rich that he would not have to accept the first job that was offered.

Millicent never heard that rehearsed proposal and the Calvin Blake who slipped out of town was a different man. When he awoke from his conquering dreams the money and pocket-book were gone. Without waiting, even to get his best suit, he strode off over the dusty roads. "If I can ever make good," he said, "I'll come back. And if I don't, they'll never see me again. A young fellow can't get married, or even propose, unless he has something in the bank."

Millicent wondered at the departure of her suitor. She changed the subject when his name was mentioned, gave up attending the regular dances of the reviewers club and took up painting. A year passed and Millicent knew she was still waiting for the return of the man who had disappeared.

CALVIN came back in the night with only a dollar which he left.

"I'll look around a bit," he told himself, "and get out before morning. Gee, but the old town seems good!"

Millicent's house, he found, and looked in the window. She was there with her mother, both reading, not a bit changed from the girl of a year ago. The young man, despite his determination to go away again, took pleasure in the discovery that she was still unmarried and living at home. He turned and walked toward the railroad tracks. It was his intention to steal a ride on a freight train.

In that year Calvin Blake had been toasting light. Shabbily dressed, he made poor impression on those to whom he applied for work. He lost one job when the force was curtailed. Then he went to a shoe store, thinking all ways if he could only get a foot hold he would show the world, and Millicent, of what stuff he was made.

The tramp had neared the yards when a light in a small store and home attracted him. It was the cleaning works to which he had sent his suit a year ago. He paused and thrust out his chin.

"I'll make 'em give it back to me," he said. "It's more mine than theirs."

At the counter he stood aggressively, ready for argument. A bent man in a skull cap moved forward to walk on him.

"I sent a suit here a year ago," Calvin said. "I want it now. I haven't any money. Blake, Calvin Blake is the name."

THE little man leaned forward to study his customer and the curtains of the back room parted as a woman peered through.

"The suit is here," the man said. "I'll have it made for you. It's only sorry you didn't get it before. Perhaps, Mr. Blake, you would care to have a little something to eat?"

He remembered hearing of Calvin, the gentle man before and he stretched out his hand. "I'll pay for the cleaning," he said, and he drew out his pocket.

From the back room came the cleaner's wife carrying the suit.

"It may smell of camphor," she apologized, "for you see I have been using it for a long time." In her hand she held a small bundle.

"Here is a package that was in the pocket. We wrapped it up and sent it to you. It's a new suit."

Calvin Blake opened his purse and gazed at his \$500. The year of wandering was erased as he looked to the future again.

"Say," he asked the old man, "will you loan me a razor and the use of a room that I may change my clothes?"

In a suit smelling of camphor and with a pocket full of money, he hastened up the street framing a new proposal for Millicent.

### COURT HALTS MATHILDE'S MARRIAGE

Temporary Injunction Issued As Mrs. Edith McCormick Fights Daughter's Wedding With Lively Owner

Wealth, Ages and Citizenship Bases of Mother's Action; Riches Not Vital in True Love, Is Father's Answer

CHICAGO, May 31.—Mathilde McCormick was today temporarily restrained from marrying Max Oser, her Swiss livery stable keeper fiancé, by Probate Judge Horner. The restraining order, issued on request of her mother, Mrs. Edith Rockefeller McCormick, is binding until next Saturday, when the court announced a decision will be issued on whether or not the order will be permanent.

The following objections to the marriage were presented to the court by Mrs. McCormick through her attorneys:

- 1.—That Mathilde is illegitimate, while Oser is a poor man.
- 2.—The great disparity in the ages of the two—Mathilde is 17, while Oser is past 42.
- 3.—That Mathilde would lose her American citizenship by marrying the Swiss.

RICHES NO BAR TO LOVE, FATHER REPLIES

Answers to the objections, made by attorneys for McCormick, guardian and father of the girl, who had consented to the marriage, were:

- 1.—That riches should be no bar to marriage if love is true.
- 2.—That many persons who had disparity of ages much greater are happily married.
- 3.—That Oser may become an American citizen.

The court instructed attorneys for Mrs. McCormick to file by 1 p. m. Thursday a written petition giving particulars why the wedding should be prohibited. Attorneys for the young man, meanwhile, filed a petition on Friday. The injunction to prevent the marriage is binding on McCormick as guardian of the girl, but not on her from giving consent to the marriage before the court grants permission.

JUDGE WILL DEMAND VERY GRAVE REASONS.

None of the McCormicks was in the crowded court room when the case was heard. The only indication toward the dispute was when Judge Horner gave of his attitude toward the dispute was when he asked with attorneys for McCormick that "very grave reasons must be shown" as to why the marriage should not take place.

Mrs. McCormick, daughter of John D. Rockefeller, said she approved appointment of her divorced husband as guardian of their 17-year-old daughter.

The court in every way to serve as guardian," she said, "but I do not believe Mathilde should be allowed to marry Oser at this time."

Attorney Edwin Cassel, who represented the father in the hearing, argued against the petition of Mrs. McCormick.

The court cannot place a legal restriction over the consent of the guardianship," Cassel said.

Attorney Charles Cutting, attorney for Mrs. McCormick, demanded a searching probe by the court into the proposed marriage.

"Here is this 17-year-old girl who intends to marry a man 27½ years older than she," Cutting said. "She is a subject of Switzerland and if she marries him she will become a Swiss. We will do all we can to aid the court and present evidence which we believe will prove conclusively the marriage should not be permitted."

### Rich Bulgarians' Daughters Must Toil for Nothing Or Go to Prison

Peasants' Government Forcing Bourgeois Maids to Do Its Bidding.

SOFIA, Bulgaria, May 31 (By the Associated Press).—Premier Stamboulsky advocates the arrest and punishment of girls who refuse to obey the new law requiring them to work for the government free for four months out of each year.

Under this law girls between 16 and 20, daughters of bourgeois citizens of Varna and Sofia, are required to work but only 100 have thus far complied. They are doing sewing, typing and hospital work. The law became effective May 12. Those who have complied belong to some of the wealthiest families.

The law is typical of the rule of the peasantry, which Stamboulsky, the peasant premier, says now is an actuality in Bulgaria. Thousands of visitors are now in Sofia for the peasant congress and the bourgeoisie is perturbed by rumors as the result.

GUARDS PLACED WHEN U. S. ENVOY ATTENDED.

Members of the Bourgeois party, fearing the imminence of a peasant dictatorship, are attempting to export their valuables, and many have been caught and jailed. The American legation is under heavy guard, owing to the numerous threats received by the minister, Charles S. Wilson.

Stamboulsky proposed to give the vote only to those women earning their own livelihood.

"WE ARE NOW ABLE TO DO WHAT WE WILL,"

"We are now able to do what we will," he said in an address to the peasant congress yesterday. "Sofia is another Sodom and Gomorrah, inhabited by speculators and non-producers. The Bourgeoisie party has tried to get the king on its side, but the king must answer that it is the people who work, and that if we can make him president of the republic of Bulgaria, the old Bulgaria will be finished."

"Let farmers not mix in our affairs. We will pay our war reparations if forced to, but we will force those among us who brought on the war to do the paying."

"Bulgaria today is the friend of new Germany and Russia, but no treaties have been signed with any except those nations who signed the Geneva non-aggression pact."

### REPUBLIC IN ERIN BARRED BY ENGLAND

Churchill Says British Government Will Hold Dublin as Essential of Occupation—Troops to Stay on Job

Ulster Cabinet Appeals to London for Assistance as Result of Growing Warfare on Tyrone Fermanagh Line

BELFAST, May 31 (By the Associated Press).—Fierce rioting occurred this afternoon in the Millfields district of Belfast, following the shooting of two special constables, Roulstone and Campbell, who were badly wounded. Incendiary and bombing were rampant, and the crown forces used machine guns. Several persons were reported killed.

The police reports later showed four persons had been killed, and several others wounded in addition to the killing of the two constables.

A crowd attacked Peters Place, adjoining Peters Hill baths, and set on fire a number of houses, in one of which a man and woman were later found murdered.

LONDON, May 31 (By the Associated Press).—British troops will prevent the establishment of a republic in Ireland, if such action should become necessary. Winston Spensley Churchill, foreign secretary, declared in the House of Commons today during debate on the Irish situation.

"In the event a republic is set up," he said, "it is the intention of the British government to hold Dublin as one of the preliminary and essential steps of military operation."

DANGER IN SOUTHERN IRELAND IS TOLD.

"I must now, in fairness," continued the secretary, "set forth the reason which I understood led or forced the Irish provisional government (Collins faction) to enter this past, which is fundamentally opposed to the treaty. The declared conditions in Southern Ireland were degenerating so rapidly that they had not the power to hold a freely contested election; that sporadic conflicts would have resulted in many parts; that ballot boxes would have been burned and persons and candidates intimidated or prevented from taking part in the election; and that no coherent expression of the nation's will have resulted."

"If that is true it is a very terrible reflection upon the Irish people and their capacity to use the democratic institutions to which they have so long and so loftily proclaimed their devotion. It is also a reflection upon the government, which by using us continuously to withdraw its forces in order to take the whole of the Irish people so that we were acting in strictly good faith, has not been able in the whole of the six months that has elapsed to organize an efficient and adequate police force capable of maintaining the peace."

TIROUS HELD IN DUBLIN FOR ACTION.

Later on in the debate, in which the Ulster group assailed the government's policy, Churchill frankly admitted that British troops were being held in Dublin as a preliminary step to military operations, if these became necessary.

The secretary said it must be admitted that the disturbances in Ulster for many months had undoubtedly played a part in making the position of the provisional government in Ireland difficult by exasperating the Catholic majority in southern Ireland and increasing the number of De Valera's supporters.

"Mr. De Valera has been fully aware of this," said Churchill, "and one of his surest means of striking against the provisional government and the treaty has been the exciting of outbreaks in the northern area and so provoking counter action which would be sure to raise passions in the south."

PURSUE COURSE UNDER GLAMOR OF REPUBLIC.

"These bandits pursued their disinterested course under the glamor of the republic and were sure of victory and security would immediately be restored, and that such conditions were indispensable preliminary to any free expression of the national will of the Irish people to which they looked forward at an early date."

"They further said it was in the power of the minority in Ireland,

### Waterford Beauty Buried Alive

MRS. RAY BLANKENSHIP, bride of a few months, who was buried under tons of sand in an earth slide from a river bank under which she was resting. Her husband rescued her at almost the last moment and now she says she knows almost to the uttermost the sensations of the unfortunate who suffocates.

### WOMAN IS BURIED IN SAND; RESCUED

Husband Digs With Hands in Slide and Saves Imprisoned Bride.

MODESTO, May 31.—Mrs. Ray Blankenship, 19, bride of a few months, is rapidly recovering at the Tolbert hospital here after an accident that nearly claimed her life. She was buried under several tons of sand when a bank under which she was resting gave way.

Only the presence of her husband and the fact that he was able to summon help while frantically digging towards her made it possible to rescue the girl before she was suffocated. It is her own impression that if she had not, by chance, covered her face with her hat just before the slide occurred she would not have survived, for she was buried 4 or 5 minutes.

BANK GIVES WAY AND GIRL IS BURIED.

Mrs. Blankenship was watching her husband work. He was filling a wagon with sand which was being used by men to plaster their new home on a ranch two miles east of Waterford. The heat caused her to look for shade and she lay down in the shadow of the overhanging bank. They spoke of the possibility that the sand might give way, but had dismissed the idea. Then a slight trickle of sand began falling on her face, and she tried her hat to shield her eyes from it. Then suddenly the whole bank gave way and came rushing down upon her.

The small air-pocket preserved by the hat enabled her to breathe slightly and to scream for help. Her screams could be heard by her husband, who was standing as though he came from a great distance. She also could very faintly hear the cries of her husband, as he dug towards her.

HELP COMES WHEN ALMOST TOO LATE.

Blankenship did not dare run for help, but shouted to the men at the house as he kept on digging. He had himself been buried to the thighs by the rush of sand. Finally the men at the house heard him and came to his help. George Grubb, who was driving, also heard the cries, and was the first to aid Blankenship. They shouted to the girl to conserve her strength and breath and to stop screaming, but she kept on, believing that she would aid them to find her face.

After Blankenship had dug to within a foot of her face he began digging with his hands with frenzied haste until he had brought fresh air to her.

KNOWS HOW IT FEELS TO BE BURIED ALIVE.

"I know now how it feels to be buried alive and how miners must feel when they are penned in far below," the girl said today. "In fact, that was my first thought when the sand covered me—that this was like the experience of a miner when rescue crews are working to save him."

"I could hear my husband call-

### M'CUMBER'S BONUS PLAN IS APPROVED

Senate Finance Committee by Vote of 9 to 4 Agrees to Report Favorably on Bill for Ex-Soldiers' Aid

Amendments Are Made to House Measure, Including Elimination of Land Settlement on Reclamation Plan

WASHINGTON, May 31.—(By Associated Press).—The McCumber bonus plan was ordered favorably reported today by the Senate finance committee. The vote was 9 to 4.

The effective date of the bill was changed, however, from next October 1 to January 1, 1923, after Senator Walsh, Democrat, Massachusetts, told the majority that it would take six months to get the bonus machinery in operation.

The Smoot plan, providing for paid-up life insurance in lieu of all other forms of a compensation, was defeated by a vote of 8 to 5, the three Democrats present, Simmons, Walsh and Gray, voting against it. Republicans supporting the Smoot proposal were Senators Smoot, McLean, Frelinghuysen, Calder and Dillingham.

THREE REPUBLICANS AGAINST MEASURE.

Republicans voting against it were McCumber, Curtis, Watson, Sutherland and Latham.

The McCumber plan is the House bill with some amendments including elimination of the land settlement or reclamation project.

Republican leaders hoped to work out some plan by which the bonus measure could be expedited without delaying seriously the tariff bill.

Senators said reclamation was not discussed in committee, although House leaders and some Senate supporters of reclamation legislation had urged that the Smith-McNary reclamation bill, or some similar legislation, be attached to the House measure.

Senator Simmons, ranking Democratic member, announced on behalf of the three Democrats present that they voted to support the McCumber bill only to get action quickly.

CASIE, OPTIONS ARE PROPOSED.

The senate bill, as reported, would provide cash for veterans whose service credit would not exceed \$50, as proposed in the house measure and would give to other veterans, one of these four options:

- (A) Adjusted service certificates, having a face value of 3.015 times the amount of the adjusted service credit computed at the rate of 31 a day for domestic service and \$1.25 for foreign service, with provisions for loans by banks prior to January 1, 1926, and by the government thereafter. These certificates would mature in 30 years from the date of issue or sooner upon the death of the veteran.
- (B) Face value of an amount equal to the following percentages of service credit: 100 per cent if payment were made during 1923; 105 per cent in 1924; 110 per cent in 1925; 120 per cent in 1926; 125 per cent in 1927 and 140 per cent in 1928 or thereafter. (Under the house bill the amount paid under this option would have been the total service credit increased by 25 per cent.)
- (C) Vocational training aid at the rate of \$1.75 a day, but the total not to exceed 140 per cent of the amount of the adjusted service credit of the veteran.
- (D) Land settlement; upon the opening of public lands, lands to entry, veterans would be given preference in their settlement for a period of not less than 60 days, and then would be allowed by the government, for payment on such lands or improvements thereon, an amount equal to the adjusted service credit increased by 25 per cent.

(This provision is in lieu of the reclamation project proposed in the house bill.)

PROVIDES FOR LOANS UP TO FIFTY PER CENT.

Under the bank loan section, prior to January 1, 1923, any national bank, or any bank or trust company incorporated under the laws of any state, territory, possession or the District of Columbia, would be authorized to loan to any veteran upon his promissory note secured by his adjusted service certificate any amount not in excess of 50 per cent of the amount of his adjusted service credit plus interest at the rate of 4½ per cent from the date of issue.

The rate of interest charged by the bank could not exceed by more than 2 per cent the rate charged at the date of the loan for the discount of 90 days commercial paper by the federal reserve bank for the federal reserve district in which the bank making the loan is located.

The McCumber plan, like the previous measures, proposes that the maximum compensation shall be \$500 for domestic service and \$825 for foreign service.

### BALLOON RACERS START IN A GALE

First Pilot Blown Into Another "Bag," Narrowly Misses Grandstand.

MILWAUKEE, May 31.—(By the Associated Press).—With a wind which came with sharp gusts, sweeping the gas bags south and slightly east, the national balloon race began today when Pilot Roy Donaldson, of Springfield, Ill., took the air at 3 o'clock (central standard) time.

Donaldson had extreme difficulty in getting under way. The wind repeatedly blew him into Ralph Upson's hall, and he narrowly missed the grand stand.

The government weather bureau reported that the balloons probably would swing into a northeast course after reaching a thousand foot altitude. This would take them across the Great Lakes and into Canada.

The entrants are: Donaldson, Springfield, Ill.; Major Oscar Westover, Washington, D. C.; H. E. Honeywell, St. Louis; Captain John Berry, St. Louis; Warren Rator, Brookfield, O.; Bernard von Hoffman, St. Louis; Ward Van Norman, Akron, O.; Captain Harold Weeks, Laughlin, Va.; Lieutenant James Neilly, Redfield, California; Lieutenant Commander J. P. Norfield, Lakehurst, N. J.; Lieutenant W. Freed, Pensacola, Fla.; and J. C. Kibben, St. Louis.

### Forest Fires Sweep Camps in Northwest

Leaves Wrecks of Camps, Burns Forests.

PORTLAND, Ore., May 31.—Fire swept the countryside near Corbett, a small town twenty miles east of here, in the Columbia river this morning. Several farmhouses, a number of barns and scores of livestock were consumed.

SEATTLE, Wash., May 31.—The village of Cedar Falls, seven miles south of North Bend, near Seattle, almost entirely isolated by a raging forest fire, and rescue parties are hastening from North Bend to reach the marooned people in the doomed town, according to telephone messages here today. Most of the marooned are women and children.

JAPAN PROBLEM IS PUT TO REALTY MEN BY GOVERNOR

Stephens Urges Visitors to Study Conditions at First Hand.

SAN FRANCISCO, May 31.—A welcome to the "Out of Doors" land of California and a reiteration of his stand against the "peaceful penetration" of the Japanese into the state's agricultural areas, were voiced by Governor William D. Stephens today in welcoming the delegates at the opening session of the fifteenth annual convention of the National Association of Real Estate Boards.

"Perhaps more of the future lies in your hands than in mine," he said. "However, I know that you are awakening to your great responsibilities, for in recent years through organization and the determined effort of your wise and courageous leaders, there have been some who were not fair and square in all their dealings. Gathered as you are from every state in the union I desire to bring to your attention the problem that not only affects California, but affects other states, and will affect them all and seriously if it is not checked. I refer to what is known as the Japanese problem. I do not approach it in any fault-finding, unfriendly spirit, but with great admiration and respect for the attainments and progress of the Japanese people."

**JAPAN NOT AFFECTED.** "Neither their lands nor their civilization are affected by the war from America to Japan, but our lands and our civilization are seriously affected by the habits and customs of all Oriental peoples who come to dwell in California. An important jury might declare Japanese civilization superior to ours, but no one can claim that it is like ours. "In California the Japanese farmer sleeps on beds as hard as the floor, with pillows like rolls of wood. Their house comforts and sanitary arrangements are primitive and meager. Their women bear children and in a few days are again in the fields with the young babe in a box or basket between the rows. And there they remain, the mother hard at work all day long from daylight until dark. That may be a better way than ours, but certainly it isn't like our way. And thank God, it never will be our way. "The problem is indeed serious, but without possibility of war, for Japan has made no progress to go to war about a question that affects neither her lands nor her civilization. It is an American problem to solve and we must solve it right and for all time. We are friendly people, neighbors and inter-communitive and will so remain, especially if Washington will but exercise a firm diplomacy."

**HAVE NEVER USED.** "In all history the Orient and the Occident have not fused. Why try it now? We find no fault with the Japanese who loves his Mikado. We do not object to him standing on the housetops and shouting his praises of his people so loud that all the world may hear. But we do insist that the house from which he hollers shall be in Japan and not in California. "You can help solve this problem which is yours as well as ours. While you are in California talk to those who know about it. Go and see for yourselves the conditions of which I have spoken. Then tell what you have learned to your home friends. Appeal to your congressmen. The solution is federal. California, having done about all a state can do."

Eastbay to Be Host To Realty Visitors

Sunday will be the banner day for Oakland and the Eastbay in the fifteenth annual convention of the National Association of Real Estate Boards, in session in San Francisco. On that day the more than 3000 delegates will visit the Eastbay cities as guests of the people of Oakland, Alameda, Berkeley and Hayward. An elaborate program, including a barbecue and automobile tour has been arranged for the visiting delegates. They will be taken throughout the Eastbay cities, over the Skyline boulevard and through other places of interest.

REALTY MEN OPEN GREAT BRITAIN S. F. CONVENTION; GET BIG WELCOME FOR ERIN FOLK

"Pop" Characterizes Opening Session; Visitors Warm to Bay City Hospitality.

the "pop" with which the opening session got down to business. VISITORS MET BY WELCOMING HOSTS. Immediately upon their arrival in the city the delegates sought headquarters, where they were registered and assigned to hotel accommodations for the period of the convention. Early arrivals joined the throngs of San Francisco and Eastbay members in welcoming others.

The visitors were met at the ferry and at the trains. Groups of local members traveled many miles out to extend the community's welcome to the incoming special trains and caravan. They were escorted to their hotels, where the women visitors found a real California greeting in flowers such as only this state can offer. From 8:30 until 9:30 a. m. today the delegates devoted their time to last-minute registration at the Exposition Auditorium. The next half-hour was occupied by community singing, led by Howard I. Milholland, the San Francisco board's song leader, and an organ recital by Uda Waldrop. Every accredited delegate to the convention from Oakland, Alameda, Berkeley and other Eastbay cities was in his place in the auditorium when the first day's session was called to order.

No time was given for play on the first day—that is as far as the men were concerned. The case of the women visitors was different. This afternoon they were taken on a motor sightseeing trip, given by the local women's entertainment committee, and tonight they will be taken on a tour of San Francisco's Chinatown.

In keeping with its character of being a business man's convention, the association is adopting this year for the first time in its history the principle of conference gatherings. In this way the organization expects to clear its calendar of everything but essential and well-directed discussions. Immediately after the formal announcements the general meeting will break up into smaller groups, each with its own convention problems. Toward the close of the convention the delegates will reassemble in another mass meeting for reports of these conference discussions and the recommendations of the former.

**COVERS MANY SUBJECTS.** The conferences today covered such important subjects as industrial property, subdivisions, multiple listing, realty financing and farm lands.

Last night the big open house held at the Palace Hotel in the Palm Court completed the process of acquainting the men and women strangers with the local members of the profession and their wives. When the convention opened today every delegate was able to call every other of the three thousand and more associates by their first names.

The visitors were unanimous last night that never had a convention of the association been taken more into the hearts of the hosts nor had the hospitality been more spontaneous than was the case of the San Francisco and Eastbay boards' greeting to the guests on this occasion.

Conferences on "Zoning and City Planning," "Selling and Advertising Real Estate," and "Leases" are to be held at 9 a. m. tomorrow as the opening feature of Thursday's program for the convention. Louis T. McFadden, chairman banking and currency committee, United States House of Representatives, will be the chief speaker tomorrow.

He will address the assemblage at 11 o'clock and talk on "Tax-Exempt Securities and Their Effect Upon Real Estate."

More than 200 members of the association from Oakland, Alameda, Berkeley and Hayward are at the convention today, and will be present throughout the week, representing this side of the bay's interests in the national gathering.

Los Angeles Wins Secretary Ingersoll

SAN FRANCISCO, May 31.—When the fifteenth annual convention of the National Association of Real Estate Boards, in session here, closes Saturday, Tom Ingersoll will conclude a service of eleven years as secretary of the association. Several months ago Ingersoll announced that he would not be a candidate for re-election, and a few days after the close of the convention he will become secretary of the Los Angeles Real Estate Board. Ingersoll was elected secretary of the association at the national convention held in Denver in July 1911, and has held that post ever since. At that time the association was made up of only 42 real estate boards. It now has 425. Since the time he had been administrative officer he had provided for and "carried on" at national conventions held at Louisville, Winnipeg, Pittsburg, Los Angeles, New Orleans, Milwaukee, St. Louis, Atlantic City, Kansas City, Chicago and San Francisco. During the war Ingersoll rendered service to the government when the offices of the national association were moved to Washington to assist the government on the warping, leasing and acquisition of property.

"I was lying slightly on my side with my hat over my face, and these two facts, I believe, saved me. The hat gave me a chance to get what little air remained, but if I had been lying on my back the direct weight of the sand would not have allowed me to breathe. Osteopath Victim Of Masked Mob

OMAHA, Neb., May 31.—C. H. Crusen, an osteopath of Sidney, Neb., was lured into the country near Sidney Monday night and beaten by a masked mob whose members tore his clothes off and applied a coat of crude oil and grease, according to a special despatch received here. The victim staggered to a farm house and was driven back to Sidney by a friend. Officers so far have been unable to learn the identity of any of the mob or find a motive for its action, the despatch says.

The inhabitants of Brides street, which is exposed to across-border fire, are piling sand bags along the river for protection of their homes. Ulster special constables have taken up positions at Camel's Mump, which is also being fortified with sandbags.

A message from Strabane this afternoon said desperate fighting had broken out, and that the panicked townspeople had deserted the streets. Snipers were firing continuously from house to house, the message said, and hundreds of windows had been smashed by bullets.

High Blood Pressure Symptoms

- 1. Cold hands and cold feet.
- 2. Slight momentary dizziness.
- 3. Steep unprovoked rising.
- 4. Sleep disturbed by dreams.
- 5. Feeling of fullness in the head.
- 6. Gastric disturbances after meals.
- 7. Constipation.
- 8. Weakness and lowered vitality.
- 9. Nervousness.
- 10. Headaches.

Have you any of these symptoms? If so, it will pay you to have a careful blood pressure examination. That they are dangerous, however, is shown by the fact that Life Insurance Companies will not accept a person with a blood pressure in points above the normal. Statistics show that even this small point advance in pressure increases the mortality rate by 35%.

The first effects of High Blood Pressure are not always apparent, but the ultimate consequences may be: enlarged heart, hardening of the arteries, apoplexy, Bright's Disease, diabetes and other dangerous diseases.

Thousands of sufferers from High Blood Pressure have found rapid relief through the Water Treatment. For over forty years it has received the recommendation of physicians who are in a position to pass competent judgment as to its merits. Thousands of letters are on record in our files from patients who have either been completely cured or greatly benefited from the Water Treatment. President Caldwell Extends Greetings

SAN FRANCISCO, May 31.—Following is an excerpt from the message of Colbert Caldwell, president of the San Francisco Real Estate Board, welcoming the visiting delegates to the fifteenth annual convention of the National Association of Real Estate Boards, which opened today in this city: "Realtors of America, the San Francisco Real Estate Board bids you welcome to our state, welcome to our city, and welcome to our hearts and homes. During this, the fifteenth annual convention of the National Association of Real Estate Boards and after its close we hope you may come to know how very welcome your visits to us."

"We are conscious of the fact that in leaving your homes and business affairs to be here you have relied upon the assurances that have gone forth that a convention program, both of business and pleasure, would be offered you that would justify the sacrifice of time required of those of you who come from the far north, south and east."

"In developing the program of entertainment which we have the honor to offer you we have been guided from the first by the hope, which has later grown into a belief, that your interest in our city and this wonderful state, of which we are so proud to be a part, may have been an added incentive for your journey. Every opportunity, therefore, will be given you to see our city and know our people and, due to generous and wholehearted co-operation of our fellow Californians, opportunity has been and will be, given you to see at least a part of the wealth and beauty of our entire state."

Work Will Start On Red Men's Hall

DOUBLE SHOOTING  
CHARGED TO WARD  
BY N. Y. JOURNAL

Paper Prints Version of the  
Killing of One, Maiming  
Another.

NEW YORK, May 31.—(By International News Service.)—A complete and entirely new version of the Ward mystery, in which it is alleged that Walter S. Ward shot and killed Clarence Peters and shot and seriously wounded another youth, in the library of his own home at New Rochelle, is published by the Evening Journal here today. The young millionaire baker, according to this story, was seated on the evening of May 15, talking with Peters and his young companion, who is now in a hospital, when two other men entered the house and were passing up the pantry stairs, with the object of listening to the conversation. These men, one of whom is said to have been an intimate friend of Ward, were seen by a maid.

FOUR SHOTS FIRED.  
The Journal account continues: "When Ward discovered the presence of a third man in his house it is said the young millionaire's face went as white as a sheet. "Pulling a gun from his pocket, he fired a shot at Peters, killing him instantly. Two more shots were fired at Peters' companion, one grazing his arm and the other inflicting a serious wound. A fourth shot was fired, which lodged in the wall of the Ward library."

POLICE STALLED OFF.  
The police of the shooting, the account depicts, brought two policemen to the house. The friend of the Ward family is quoted as saying to them: "Commissioner Ward will handle them." The second and younger of the policemen is described as having been very difficult to convince that his duty did not demand him to report the facts to headquarters in the usual routine manner. Finally it was decided, according to the Journal, that the wounded man should be removed in one car and the body of the ex-marine presumably was taken to the Kensington reservoir, where the body was abandoned.

OF THE reasons for the call of Peters and his companion on Ward, the Journal says: "Their purpose, it was said, was to prove to a third party, not that they were blackmailing Ward, but that an entirely different figure in the case was being blackmailed from a source least expected."

Further revelations are promised. NEW PROBE LAUNCHED. WHITE PLAINS, N. Y., May 31.—(By International News Service.)—The publication of a detailed description of the alleged killing of Clarence Peters and a companion by Walter S. Ward in the library of the Ward home in New Rochelle was today followed immediately by a conference of Westchester county officials.

Chief of Police Foley of New Rochelle and John McGowan, head of the detective bureau, rushed to White Plains and were promptly closeted with District Attorney F. E. Weeks. Weeks expressed the belief that "a newspaper would hardly dare publish such a story unless there was something in it."

Sheriff George Werner said: "Nothing will be left unturned when we leave." The conference was short. Sheriff Werner, Assistant District Attorney Walter B. Davis and County Inspector Expert Raymond Hill, accompanied by Lieutenant McGowan, left in the sheriff's car to make a thorough inspection of the Ward home in New Rochelle.

Blonde Co-eds  
Lead in Their  
Talks to Men

(By Associated Press)

LOS ANGELES, May 31.—Co-eds at the University of Southern California here talk more about men during their school days than about any other subject, according to Professor Ralph L. Power of that institution, who has just announced figures he has compiled. His data follows:

Talk about men, 57 per cent.  
Talk about dress and fashions, 27 per cent.

Talk about amusements, 3 per cent.  
Choice gossip, 7.33 per cent.

Chicks old enough to be retired, 58 of 1 per cent.

Miscellaneous, 5 per cent.

Blondes give up more than 57 per cent of their conversation to men and brunettes less, Professor Power states. What the latter subtract from men, they give to dress and fashions, he added.

Flappers, sub-flappers, ex-flappers and would-be-flappers often give up 100 per cent of their conversation to men, he declares.

Co-eds waste energy in discussing the movies and other amusements, but they give attention to "choice gossip" and even to society functions, tell jokes "of the vintage of '76," he asserts.

Professor Power declined to state what subjects make up the group he labeled "miscellaneous."

ENGLAND READY  
TO CANCEL DEBT

LONDON, May 31.—(By International News Service.)—Great Britain is ready to enter at once into negotiations for cancellation of war debts on condition that the other powers consent to cancel debts owing to them. Premier Lloyd George stated in the House of Commons this afternoon. "But Great Britain cannot cancel the war debts unless other nations remit their war debts," the premier said.

Great Britain and France are in complete accord, Lloyd George also announced in the House of Commons, stating that the differences over the forthcoming conference at The Hague.

"There is no cause for disagreement between France and Britain," Lloyd George said.

GERMAN NOTE O. K.

PARIS, May 31.—(By International News Service.)—The international reparations commission has pronounced Germany's indemnity note satisfactory and will proceed at once to put into effect the demands which Germany accepted, the Echo de Paris stated today.

Acceptance by the Germans of the allies' demands averts the possibility of France extending her military occupation of German soil. Germany is expected to enact her promises into organic law before the end of next week.

40 People Killed by  
Portuguese in China

HONGKONG, May 31 (By the Associated Press).—Forty persons were killed and more than 100 wounded in the recent fighting on the island of Macao, which resulted in the declaration of martial law. Macao is a Portuguese concession and the trouble is said to have arisen when Chinese women were insulted by the African police employed by the Portuguese.

After the arrest of several Chinese a general strike was called by the Chinese "reds" and the shops were closed. Demonstrations against the Portuguese then began and it was in the attempts of the police to put down these disturbances that the casualties resulted.

RAIL REDUCTION  
IN PAY ORDERED  
DESPITE PROTEST

Maintenance of Way Employees Begin Preparation of Strike Ballots.

CHICAGO, May 31 (By the Associated Press).—The reduction of wages for railway shop men to be announced in a decision by the United States Railroad Labor board this week will be ordered over the protest of labor members of the board, it was learned today.

Albert O. Wharton, former head of the Shopmen's Union and ex-president of the Railway Employees' department of the American Federation of Labor, was framing a minority decision today. It will be published simultaneously with the majority order.

It will add at least another saving of about \$50,000,000 to the common labor reduction of that amount last Sunday.

Other decisions covering clerks, telegraphers and various other smaller classes of railroad employees will be announced later. The train and engine service men will not come under the present decision.

The board today granted an audience to the executive council of the shopmen's union, which yesterday requested a conference on the status of "outside contract" cases.

PLAN FOR WALKOUT.

DETROIT, May 31 (By the Associated Press).—Officials of the United Brotherhood of Maintenance of Way Employees and Railway Shop Laborers today began preparation of strike ballots to be sent within the next few days to the 47,000 members of the organization and to the approximately 75,000 non-union men of the crafts who would be affected by a strike.

The brotherhood members, with the non-union men, will be asked to vote on the question of accepting the wage cuts of from one to five cents an hour recently ordered by the railroad labor board in Chicago. If a majority of the brotherhood votes in favor of a rejection of the decreases E. J. Grable, grand president of the brotherhood, with headquarters here, is expected to issue a strike call immediately, setting the date for the walkout.

A resolution calling for the strike vote and ordering Grable to take the strike step in the event it is sanctioned by the membership, was unanimously passed last yesterday by the brotherhood's executive council composed of all officers of the union.

WILL MAKE STRIKE BALLOT.

A strike ballot will be mailed to each person affected by the reductions.

It is expected by union officials that the last of the 550,000 ballots will have been mailed by the first of next week. All the replies are looked for by the end of June.

If a strike is desired by the membership such a call probably will go out early in July, Grable said.

The wage reductions ordered by the labor board become effective July 1.

The resolution calling for a strike vote was confined to the mere request for such a vote and the empowering of the president to

OAKLAND SCHOOL  
BOARD WILL LOSE  
TWO EDUCATORS

Principal of Junior High and Head of Home Economics Division Quit.

Two important resignations in the upper teaching staff of the Oakland school department are scheduled June 16, at the end of the school year. One is Miss Florence LaGanke, supervisor of home economics, and the other is W. A. Givens, principal of Garfield junior high school.

Miss LaGanke says she intends to go to her home at Cleveland, Ohio, to rest for an indefinite period. Givens has accepted the principalship of a Honolulu school next year at an increased salary.

Miss LaGanke came from the home economics department of Columbia University three years ago to head the Oakland department. Givens has been but one year in Oakland.

Miss LaGanke asserts that after a long visit to her home she will take up teaching again, and will meanwhile undertake a course of studies.

"The loss of these two educators is a loss to the whole school department," says Superintendent Fred M. Hunter. "Both have made splendid records in the educational system of Oakland and I am sorry to see them go."

No successors have been decided upon for either.

Body of Woman  
Found in Manhole

BY INTERNATIONAL NEWS SERVICE  
PHILADELPHIA, May 31.—The body of a woman, thought to be Mrs. Millie Constanza, 27, of 46 Ashmead street, Germantown, was found in a telephone manhole today in front of 56 Ashmead street.

Mrs. Constanza disappeared three months ago. Her husband disappeared shortly after his wife was reported missing. The body was found down in the manhole, having been apparently thrown in with some force.

A call such a strike if it was ordered by the membership.

The executive council, in a previous statement to newspaper men, had denounced the wage cuts ordered by the board as unfair and unwarranted at this time, holding they represented a pay slash of 12.2 per cent for the average maintenance of way worker. They asserted further that the cost of living had not declined more than 3 per cent in most instances throughout the country.

If a strike should result all mechanics and maintenance of way employees on all the leading railroads of the country would be affected. The only exception, according to Grable, would be employees of the short railroads that do not come under the rulings of the labor board. Those crafts comprising the brotherhood's membership include mechanics, section men and foremen, track men and their foremen, bridge builders, painters, coal chute men, cinder pit men, all common laborers in shops and all carpenters.

IS CRANE WILBUR  
ONE OF THE BEST  
ACTORS IN AMERICA?

COLD-BLOODED, quiet, skeptical people in New York—people of authority—have said that in their opinion, Crane Wilbur is the most distinguished actor in America.

Does that mean that Mr. Wilbur is the Best actor in America?

What does it mean to be a "distinguished" actor? Does it mean to rank, as an actor, with Otis Skinner and Richard Mansfield and Henry Miller and Bruce McRae.

We wonder.

Crane Wilbur's new plays have been accepted by the "big" New York theater producers. Four of these plays will be produced by Mr. Wilbur this summer in Oakland, watched closely by Al H. Woods and George Broadhurst. These two famous producers have paid money—real money—for these four new plays. They believe Mr. Wilbur to be the coming American dramatist. Their money talks for them.

These four new Wilbur plays are "The Imported Wife," "Good Morning, Caroline," "The Monster," "The Heart of Dane O'Hare."

It will be interesting—immensely interesting to see these new Wilbur plays in Oakland. Here Mr. Wilbur's first fame was won, before New York put its polish and glitter upon him as an actor and writer. Mr. Wilbur's season begins Sunday, June 4.

## WILL LOOK FOR POLAR CONTINENT

SEATTLE, May 31.—Captain Roald Amundsen, who starts on his polar expedition Saturday, has announced that one of the primary objects of the trip into the Arctic is a search for the great undiscovered continent of the north supposed to lie somewhere in the vast unexplored region surrounding the north pole.

"The theory that there is a large continent near the pole," Captain Amundsen said, "was first advanced by the late Professor Hiram of Washington, D. C. He came to his conclusion from a close study of oceanography. The Amundsen expedition will attempt to establish whether the continent is there."

## AIRMEN SURVIVE 2500-FOOT FALL

MILWAUKEE, May 31.—An Army airplane, carrying Lieutenant James E. Eldredge, stationed at Randolph, Ill., and Paul V. Carpenter, a local newspaper man, fell 2500 feet into Lake Michigan, off Milwaukee Harbor late yesterday, when Eldredge tried to bailplane because of motor trouble.

Eldredge and Carpenter managed to work themselves free from the wrecked plane and were picked up. Neither was seriously injured.

## STARLIGHT

Virginia Fairfax, daughter of the first failure of her grandfather, and lured by the promise of a million dollars, runs away to become a motion picture actress. Arriving in Los Angeles, she meets Gloria Summers, who is in the movies. Herbert Richardson, who has been interested in her since she was a child, comes to her rescue. He is a wealthy man and she is a poor girl. They are married and she becomes a star. The story is told in a series of chapters. The first chapter is "The Girl Who Ran Away". The second chapter is "The Girl Who Became a Star". The third chapter is "The Girl Who Was Married". The fourth chapter is "The Girl Who Was Loved". The fifth chapter is "The Girl Who Was Happy".

**VIRGINIA'S PART.**  
"Let's see your script," demanded Kitty eagerly as she rushed into the apartment and saw me with a roll of manuscript in my lap and gazing into space.

Almost heart-broken, I handed it to her. To me it was almost meaningless and I was greatly disappointed in my part. Apparently I would only have a very few minutes on the screen, with a change of costume every minute.

My contract was folded within an instant. Kitty looked to see how much I was getting. "Oh, hundred and fifty dollars! That is pretty good for him, Virginia, considering your experience."

"But I will only have about a week's work. If you will read the whole script you will see how short it is."

"Never mind about that, child. When Theodore Stratton's director holds of your part you are likely to push Mr. Stratton out of the boards—or else she will do the same to you. You are doing some fancy skating on thin ice, Virgie."

"That is the worst thing about this business. A girl has to be a heart because some man is interested in her and if something changes his mind she loses him and her job."

"But, Kitty, you wouldn't say that of Mr. Stratton, would you? He has been perfectly lovely to me. No girl could have a better friend, and of course you know that he has never been anything more."

"Is it possible that Theodore is losing ground? Has he been too subtle? Good Lord, Virginia, if he could hear you say this and realize that all his love-making has gone over your head he would give you a test in the morning and find something wrong with your work."

"But, Kitty, he couldn't do that when I have my contract, could he? Surely he has conscience."

"My dear, a man's conscience is like his head, it never bothers him until the morning after. But conscience or no conscience, he can't do it. You have your contract. I was just raging you."

"Virgie, will you never understand that Theodore Stratton is an adept in near-lovemaking?"

"Near-lovemaking? I don't understand you."

"Have you been in movies all this time without learning that 'near-lovemaking' is the scientific

**Insurance Placed On Cash of City**  
LOS ANGELES, May 31.—The City Council has instructed the city treasurer to take out a \$100,000 insurance policy on the city this year for protection in case of robbery.

The city's millions are usually on deposit with banks, so the Council fixed that sum as likely to cover the loss if the vault in the city hall are robbed. These vaults are guarded day and night by armed men.

**WENT BACK TO WORK INSTEAD OF TO COLORADO**  
Burbank Man Says Tanlac Actually Put Him Back on His Feet in Five Days' Time.

"It is very seldom I get enthused over anything as much as I am over Tanlac," said W. D. Graves, 1121 San Fernando Bldg., Burbank, Cal., a well-known transfer man.

"For five years I was in such a bad fix I could scarcely eat a thing and felt tired and sluggish all the time. I was so nervous the least excitement upset me for hours, and I never got a good night's sleep. Nothing I took seemed to help me, and finally I got so bad off I got ready to go to Colorado, hoping that might benefit me."

"But I saw a Tanlac statement which so impressed me I bought a bottle, and in five days I was much better. I actually went back to work instead of going to Colorado. Tanlac has now built me up twelve pounds in weight and I am a well man. At one time four members of our family were taking Tanlac, and it has been splendid for all of us."

## TRAINS ADDED TO GOWNS FOR COURT FUNCTIONS

Economy Is No Longer Key-note for Receptions at Buckingham.

LONDON, May 31.—Economy is no longer to be the keynote of court functions at Buckingham palace. No more "economy courts," as they were called, are to be held. These were established by their majesties after the war to set a fashionable society a much needed example in curbing extravagance. The seal of royal approval has now again been bestowed on court trains. Indeed, no women can be presented at court who does not wear them. Of course as a man the lord chamberlain cannot presume to be an expert on fashionable feminine dress, but it is one of his many official duties to lay down rules and regulations to which women must conform at the most exalted of court functions.

This is one of the things for which he is paid \$15,000 a year. He has to be a peer besides to qualify for the exalted office which is counted among the political plums that the prime minister has to give away. The present lord chamberlain is in the top class of the peerage. He is the Duke of Athol.

By restoring the court train he has earned the blessings of the fashionable dressmakers. But they would have lengthened their blessings if he had lengthened the trains. Before the war three yards was their regulation length, while Queen Victoria didn't insist for yards too long. By the new regulations they need be only two yards in length and should not extend more than 18 inches from the heel of the wearer when standing. To walk backward before royalty in a train three yards long without getting tangled up in it, imposes a severe tax on the agility and skill of not a few socially ambitious women. Queen Mary is a very kind woman and she would naturally wish to spare her sex making exhibitions of themselves. Hence she was in favor of the shorter length for trains.

**SCHOOL HAS CAFETERIA.**  
OAKDALE, May 31.—A cafeteria will be a feature of the high school when it opens for the fall term. Plans are now being made for its installation and equipment. It will be merely to pay expenses. An advanced course in cooking will be given under the supervision of Miss Dennison. The cafeteria will be conducted in the present cooking room and the commercial room will be used for the diners. When the new building is completed larger accommodations will be provided.

**DEATH CAUSE UNKNOWN.**  
ALHAMBRA, May 31.—Mrs. Radio Boyer Payne, wife of Walter T. Payne, realty operator of the San Joaquin valley, was found dead in her home here yesterday. There were no outward signs of the cause lived in Denver, Colorado and Salt Lake City.

**CHICAGOAN DIES IN SOUTH.**  
PARADISE, May 31.—Adolphus Clay Bartlett, prominent Chicago business man, died yesterday.

## Girls! Buttermilk Creates Beauty Overnight

The first application of Howard's Buttermilk Cream will astonish you. It creates beauty almost like magic, but the most wonderful thing about it is the fact that while it turns the dullest, most lifeless complexion to radiant beauty and makes red or rough hands or arms snowy white, yet there is not the slightest sign of its use. It actually vanishes from sight and the most heated atmosphere will not produce the least shininess or greasiness of the skin. It is absolutely harmless and will neither produce nor stimulate the growth of hair. Furthermore, you will find it the most perfect base for powder. Within twenty-four hours this wonderful combination called Howard's Buttermilk Cream will work a marvelous transformation. If you cannot obtain locally send 10 cents (silver or stamps) for generous trial package of Howard's Buttermilk Cream and Soap. Howard Bros. Co., 23 Main St., San Francisco, Calif.—Advertisement.

"My wife suffered for years with stomach trouble which did not yield to any treatment. She took a dose of Mayr's Wonderful Remedy last Saturday with wonderful results. I have practiced medicine for 20 years and have never seen anything like it before. I have recommended Mayr's Wonderful Remedy to several patients and I know need this treatment." It removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments including appendicitis. One dose will convince or money refunded at all druggists.—Advertisement.

## Health the Secret of Attraction

Women of today depend a good deal upon the modern modiste and a knowledge of the cosmetic art to make them attractive. Too often there exists beneath it all a suffering woman whose nervous laughter or forced smile covers a pang of agony caused by some feminine ill. To such a woman a Dr. E. J. Pinkham's Vegetable Compound will bring health and a happy relief from her suffering, that will make her far more attractive than costly gowns and cosmetics. For nearly fifty years American women have relied upon this root and herb medicine to relieve their ailments.—Advertisement.

## CHURCH RICHES OF AGES OLD TO BUY MEALS

MOSCOW, May 31.—(By the Associated Press.)—Hammers and chisels, wielded in a matter of fact manner by employees of the government committees for requisition of church treasures, have stripped in a few moments the silver or gold overlays from ikons that took years to construct. Today these sheets of valuable metal are being weighed on scales and melted down to be sold to help feed Russia's famine sufferers.

Here and there throughout Russia there have been disturbances, in connection with the requisitioning, but the outstanding feature of the campaign to transform these valuables into bread has been the calm manner in which parishioners have watched the requisitioning.

The Associated Press correspondent spent a morning with the Moscow requisitioning committee watching the work at an ancient church and a big convent in Moscow. At the latter a few nuns watched the methodical work of the requisitioners and even assisted them by pointing out the treasures containing genuine diamonds.

Fifteen minutes work stripped from an ikon all of the silver and gold, before which Ivan the Terrible once knelt, and left it a cracked oil painting. A few snips of the shears and a collar of tiny seed pearls, weighing perhaps six pounds and which must have taken months of patient needlework to construct, was cut from another ikon and tossed into a box with silver cups, diamond-studded crosses and communion cups of gold. Scores of hanging lamps of silver and hand-wrought enamel, which had been carefully tended and filled with oil and lighted for centuries, were thrown down just as quickly and were thrown in heaps on a wooden bench to be listed and weighed on the scales.

Experts from the government museums accompanied the requisitioners and if they discovered objects of great historical value these were pronounced "museum articles" and not sold but removed to the museums or permitted to remain in the churches.

## ROTHSCHILD HEIR IN SAN FRANCISCO ON COUNTRY TOUR

Baron Visits America to  
Study Banking Methods;  
Will Visit Sierra.

SAN FRANCISCO, May 31.—Baron James Henry de Rothschild, 26 years old, heir to the millions of the French branch of the famous international banking family, arrived in San Francisco yesterday. The baron has come to the United States to learn banking, as conducted on this side of the Atlantic, and is making a tour of the country.

The vastness of America and the spirit of daring enterprise displayed by its railroads in crossing thousands of miles of unsettled territory, are the two things which mainly excite the wonder and admiration of the scion of that ancient family from Frankfurt, Germany, which derived its name from the "Red shield" on the doors of their old-time banking house.

The young Rothschild is an ardent sportsman. He studied "le boxe" under Carpentier in 1915, and plays polo almost every day. During the war Baron de Rothschild served with distinction in the French aviation. He has the

## 3-WAY SPLIT ON ANTIQUATED AUTO NECESSARY

Inter-departmental conferences are now in order at the city hall concerning one small and rather old automobile which has too much business.

The car was originally assigned to the purchasing agent. Later it was decided that Harold Weber, secretary to the mayor, could use it for official business when necessary. Still later it was felt that Howard Gilkey, the landscape architect, could also use it. Since then there has been trouble.

It is asserted that when Weber or the purchasing agent have urgent business with the car, Gilkey is soaring up to the redwood grove. When Gilkey wants the car, somebody else is using it. The same applies to Weber.

Weber is now seeking some way to make a three-way partitioning of the car, so that each can have his own portions. A time schedule also is under consideration. Meanwhile, the matter has come up before the commissioners informally, and it is asserted that something will soon be done about it.

Each of the three users of the car has his own key. Recently, when the key was lost, the victim walked for a week.

550,000 FIRE DAMAGE.  
BEND, Ore., May 31.—Fire in the Shevlin-Hixon Lumber Company's timber west of here last night caused a damage of \$550,000. Two engines, a load of logs and 2000 acres of timber were destroyed.

Croix de Guerre and other decorations.

Baron de Rothschild will be in San Francisco a few days and will make a trip to the Sierras.

## TEACHER SUICIDE BRINGS THREATS OF MOB ATTACK

Woman Dismissed After 27  
Years Service Ends  
Her Life.

ELGIN, Ill., May 31.—Mob spirit of Elgin, aroused by the suicide of Mary E. Long, discharged by school trustees after she had served 27 years as a teacher, quieted down today.

Announcement by school trustees following a midnight conference with a citizens' committee that dismissal of fourteen other teachers with Miss Long had been rescinded, served to calm the public.

The citizens' committee was appointed at a mass meeting attended by many of Miss Long's former pupils, where recurrent demands that the school trustees be "tarred and feathered" were heard. Reports of the threats were carried to the trustees by the committee.

When the jury returned a verdict of "suicide due to school troubles," a mass meeting was held and immediate action in reinstating 14 other dismissed school teachers was demanded.

A committee, of which Mrs. J. G. Tapper was chairman, marched to the room where the trustees were in session. Mrs. Tapper walked in without knocking, in time to

## VALENTINO RAPS BIGAMY CHARGE

LOS ANGELES, May 31.—An attack on the constitutionality of the law under which Rodolph Valentino, film star, was arrested for bigamy will be made by his attorneys at his hearing tomorrow. Valentino's attorneys will contend that the law is unconstitutional because it gives the state power to prosecute for an alleged offense committed outside the state's jurisdiction.

The charge was brought on the ground the Valentino was married to Winifred Hudnut in Mexico before his decree of divorce from Jean Akker, became final.

# BRILLIANT METEOR IS SEEN IN THE SOUTH

ASHVILLE, N. C., May 31.—A brilliant meteor described by eye

witnesses as about one-fourth the size of a full moon, floated over this city shortly after 9 o'clock last night and settled apparently several miles north of here. It was greenish yellow in color and had a distinct tail. It was visible for several seconds, having the appearance of floating rather

than traveling at the speed usually attributed to such phenomena.

# Woman Sleeps While Her Bed Is Burning

While Mrs. Georgia Morgan, 5901

Marshall street, was asleep last night the bed clothing of her bed caught on fire from an open gas heater which was near the bed. The fire was discovered by Patrolman William Ray, who turned in the alarm. While Ray was at the box E. W. Bishop, 5868 Fremont street, saw the fire and went into the

house. He found Mrs. Morgan sound asleep. When he picked her up from the bed the walls and the bed were on fire. Mrs. Morgan was not injured.

# Youth Is Held for Beating Mother

Charged with beating his mother severely, Frederick Mendenhall was taken into custody last night by two policemen of the Northern Police station on her complaint.

Because he is under 18 years old he was taken to the detention home. According to the police report the youth attacked his mother following an argument. The report says that he broke her nose and cut her lip when he punched her several times in the face. The re-

port says that he threatened to wreck the house if his mother called the police. The report states that this is the second time that he has been placed in the detention home. The family reside at 5774 Shattler street.

## MERCY SISTERS CELEBRATE THEIR GOLDEN JUBILEE

Religions of all denominations joined with the Sisters of Mercy yesterday in a triple golden jubilee celebration.

The nuns celebrated the fiftieth anniversary of the foundation of Our Lady's Home for the Aged at 1900 Thirtieth Avenue and the golden jubilee of the religious profession of Sisters M. Quirk Martin and M. Emmanuel Spellman.

At 10 o'clock Archbishop Edward J. Hanna celebrated pontifical high mass in the chapel of the local institution with the altar and sanctuary crowded with priests and religious participants and the pews of the chapel filled to overflowing with guests.

According to estimates made by the Sister Superior there were 500 visitors at the celebration, including the majority of the pupils taught by the sisters in the parochial school attached to St. Anthony's parish in this city.

## S. F. Chauffeur Held After Street Brawl

SAN FRANCISCO, May 31.—Mrs. William Haskett, of 190 O'Farrell street, was severely injured in a fight at Franklin and Hayes streets early today, following a quarrel with a man whom she told the police was her husband. The man whom she said was her husband, was arrested by the police. He said his name was William Edwards, and that he was a chauffeur. He was charged with disturbing the peace and malicious mischief. The latter accusation followed the breaking of a plate glass window during the fight.

## Threat to Kill Is Charged by Woman

A. A. White, who is alleged to have threatened to kill Mrs. Roberta Bragg, 350 Wood street, is being held in the city prison for investigation. He was arrested last night by Policemen D. C. Whipple in the Curly club after he had been pointed out by Mrs. Bragg.

## PLEADS GUILTY

Frank Gaston, who is alleged to have drawn a revolver on Wagon Officer Albert Dicke, today pleaded guilty to a charge of carrying a concealed weapon before Police Judge Edward J. Foyell. He will be sentenced tomorrow morning. He was arrested for being drunk and following an argument, he drew a pistol. He was fined \$6 on Monday on the drunk charge.

## WOMAN IS KILLED BY AUTO BANDIT

Wife Gives Life to Save Husband in Holdup; Pair Are Robbed of \$300, Gems; Children See Mother Slain

SAN FRANCISCO, May 31.—Mrs. Anne Wilkins, 1540 Vallejo street, was shot and died almost immediately last night when the automobile in which she was returning from a camping trip with her husband and children was held up by three automobile bandits.

The fatal shot was fired when the husband, Henry Wilkins, reached for a revolver to prevent the escape of the bandits, who had robbed his wife and himself of \$300 and two diamond rings. Mrs. Wilkins saw one of the bandits take aim at her husband and threw herself in front of him, receiving the bullet through her heart.

In the automobile besides the husband and wife were their two little children, Henry, 5, and Helen, 4 years.

**HOLD UP ON BOULEVARD.**

The family had been camping over the week-end near Santa Cruz, the grief-stricken husband told the police officers. As they were driving home they were closely followed by an automobile which crowded their machine to the curb at Nineteenth Avenue and Moraga street. Wilkins was obliged to stop and three men jumped from the pursuing car and ran to that of Wilkins. The leader of the bandits then pointed his gun at Wilkins and his wife, who were seated on the front seat, and ordered them to "Give me all the money you have."

Wilkins says he handed the bandit three \$100 bills which he carried in his pocket. The bandit was on the point of leaving when he noticed two diamond rings on Mrs. Wilkins' hand. He stopped and roughly pulled the rings from her fingers.

**TO SAVE HUSBAND.**

At this a husband called to the bandit: "Isn't the money enough for you?" and reached for his gun in a side pocket of the automobile.

The movement did not escape the bandit, who fired point blank at Wilkins. Mrs. Wilkins, with a cry, threw herself in front of her husband. As the bullet struck her she collapsed and slid to the floor of the car.

The bandits fled immediately, leaving the crying children and grief-stricken father with the dying mother. "The little group was noticed by passing motorists, and at their direction Wilkins proceeded at full speed to the San Francisco hospital.

When the physicians placed the body of Mrs. Wilkins on the operating table they informed Wilkins that his wife was dead. He fell unconscious. When revived he exclaimed:

"My God, why couldn't they have killed me last night? She tried to save me. They have taken everything I had."

## UNIVERSITY Y. W. HOPES TO QUELL COMING FLAPPER

BERKELEY, May 31.—"Flapping" as a major sport on the university campus will be guarded against next semester if leaders in college Y. W. C. A. circles have anything to say about it.

High school "flapperettes" with visions of bursting forth into full-fledged flappers when they reach collegiate atmosphere will find wholesome advice awaiting them when they reach Berkeley.

Preparations are already being made for a special edition of "The Lantern," monthly publication of the University Y. W. C. A., in which will be contained much advice to women of the incoming freshman class. Miss Meta Gerken is editor-in-chief of the "Y" paper, while Miss Lois Hatch, a senior student, fills the role of manager. A set of simple rules planning to guide the activities of incoming women students will be one of the principal features of the first number of the paper for the fall semester.

## 2 ALVARADO BANDITS GET LONG TERMS

W. C. ("Larry") Fitzgerald has been given a life sentence and John A. Sullivan a sentence of twenty-five years in San Quentin for their participation in the Alvarado Bank robbery of two years ago, according to word received by District Attorney Ezra Decio from the state board of prison directors today.

The action of the prison board in fixing the terms of the two men followed the completion by Fitzgerald and Sullivan of a year in San Quentin, as the result of their convictions in the local courts in 1921.

Fitzgerald was found guilty of having aided in the robbery by driving the automobile containing the five holdup men to and from the scene of the crime. Sullivan, it was shown, planned the bank robbery and then attempted to prove an alibi by remaining in San Francisco while the holdup was taking place.

## Citizens' League to Hear Judge Church

Judge Lincoln S. Church will address the weekly meeting of the Christian Citizens' League tomorrow night in Brooklyn Presbyterian church, Twelfth Avenue and Fifteenth street. His subject will be "The Value of Law Observance."

The league, which was organized a short time ago, now has 300 members, according to N. P. Turner, the president. Turner will address the members of the Fourth Church of Christ Science tonight at the Auditorium on the purpose and principles of the league.

**ANNUAL FETE  
FOR CHARITY.**

Tomorrow is fete day for the Children's Hospital Association when the annual garden party will be given, this year at the home of Mrs. John Yule Millard in Fruitvale. A large number of the younger set will preside at refreshment and amusement booths. A beautiful feature of the fete will be the fancy dances with the Maypole one of the most popular diversions.

Mrs. William Thornton Blackburn and a corps of co-workers have charge of the affair.

The proceeds of the fete will be used to carry on the work of aiding little children who are ailing and restoring them to a normal state of health.

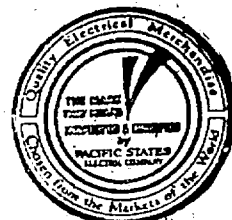

The annual "cherry" luncheon at the Meek estate in San Leandro, at which Mrs. Harry Meek will pre-

side as hostess, is to be a notable event when the season is on. Mrs. Meek each year assembles her friends for luncheon and bridge at her home in the suburbs and is assisted by her nearest friends. The gathering is one of the prettiest of the year.

**HOTPOINT ELECTRIC IRON**—Achieves perfect results with least expenditure of energy. The cantilever handle, found only on the Hotpoint Electric Iron, carries the pressure of the arm and wrist on a direct line to the ironing, eliminating the tense grip and bodily strain required in using old style irons. It is equipped with attached heel stand and exclusive hinged cord protector plug that reduces cord breakage.

## Buy Service—Don't be Satisfied with just Electricity

Upon the contractor you select to wire your house depends to a great extent—the future comfort and convenience of your household.

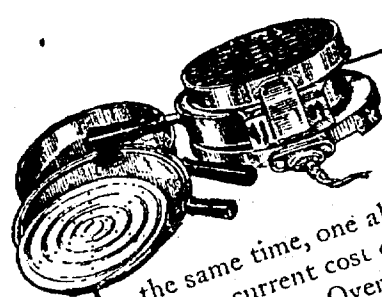

That the lights flash on when you push a button indicates nothing beyond the fact that the house has an electrical installation. It is the completeness and quality of that installation you must examine if you are to enjoy satisfactory and lasting service.

*Buy service! Buy responsibility!* Be sure that the contractor you hire is one who employs good workmanship, uses standard materials, and charges fair prices. Cut-rate electrical service is never economical. You may save as much as one half of one per cent,—(\$50.00 on a \$10,000.00 house) on the original bid. But in the end you are likely to find yourself spending five times that amount in replacing faulty workmanship and sub-standard materials, and installing additional convenience outlets, wall switches, etc., that are absolutely necessary in order to make efficient use of the various electrical appliances which bring so much comfort to the modern home.

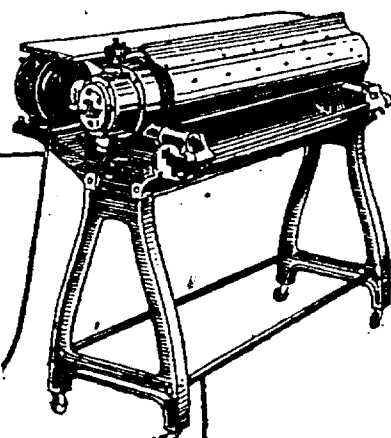

There are plenty of responsible, qualified electrical contractors and dealers, and the Pacific States Electric Company's orange and blue "check" seal is a helpful guide in finding them. This mark identifies a complete line of electrical materials and appliances, chosen by the Pacific States Electric Company from the markets of the world, inspected, and certified by them as standard. They are distributed by electrical contractors and dealers who are responsible and who are qualified in every way to give you the sort of service which you have a right to expect.

*The electrical appliances shown on this page, together with other standard electrical products, certified by the "check" seal, are described in our new booklet, "The Electrical How for Householders". You will enjoy this booklet, with its many practical suggestions for the convenient and economical utilization of electricity in your home. It may be obtained free from any electrical contractor displaying this seal.*

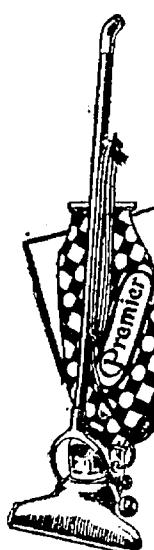

**HOTPOINT RADIANT GRILL**—Boils, broils, fries, and toasts—any two operations at the same time, one above and the other below the coils, at the current cost of one. Used in combination with the Hotpoint Ovenette, the Hotpoint Radiant Grill also bakes and roasts. Three heat adjustment saves current. Made of steel finished in polished nickel. Guaranteed one year by Edison Electric Appliance Co.

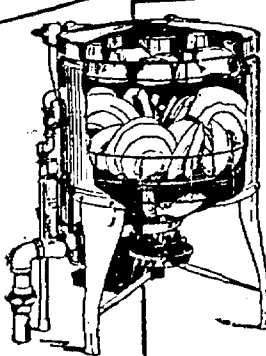

**THOR ELECTRIC IRONER**—Does the average family ironing in about one-fifth the time it takes to do it by hand—and does it better. Handles everything from household linen to lingerie. Costs about 5 cents an hour to operate. No special skill is required. The control is simple and automatic. Equipped with G-E motor.

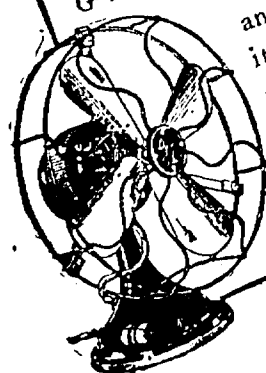

**PREMIER VACUUM CLEANER**—"First among cleaners." Half a million now in use. Cleans in two ways, by powerful suction alone or by suction plus a rubber-fingered brush. This feature is of great advantage to the housewife. Attachments include tools for cleaning mattresses, clothing, walls, furniture, pianos, etc. May be quickly attached to any convenient outlet. Has air cooled G-E motor.

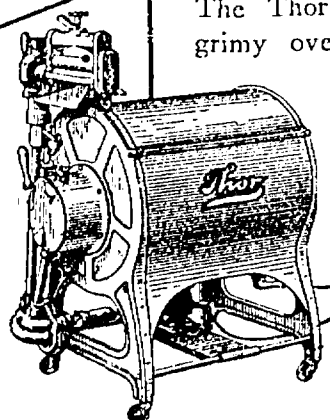

**WALKER DISHWASHER**—The one thoroughly practical dishwasher. On the market seven years and steadily growing in popularity. Thousands now in use. Directly connected with water supply and drain pipes. Practically eliminates the housewife's most disagreeable task and saves fully an hour a day in time. Current and soap powder cost about 10 cents per week. Has G-E motor.

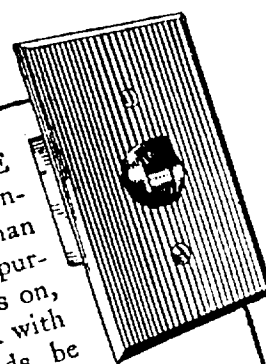

**G-E ELECTRIC FANS**—Types and sizes for all purposes. Turn an electric switch and you have breeze and ventilation—when and where you want it. Sturdily constructed and attractive in appearance. Works year after year, silently, dependably, economically. Supplied in both non-oscillating and oscillating types, the latter furnishing a regularly shifting supply of air.

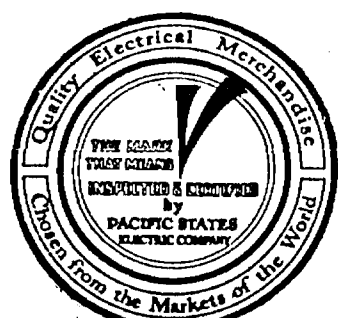

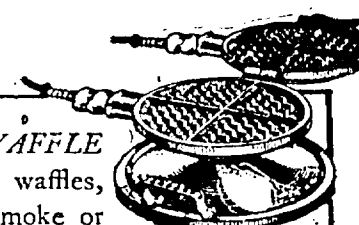

**THOR ELECTRIC WASHING MACHINE**—The Thor washes everything from fine laces to grimy overalls without any rubbing. It does the week's washing in half the time required by hand methods and eliminates all the hard work of hand rubbing and rinsing. The Thor is scientifically constructed. Over 750,000 now in use. Equipped with G-E motor.

**G-E TUMBLER SWITCHES**—The G-E tumbler switch is the latest device for controlling circuits, and stands up better than any other device made for a similar purpose. It is self-indicating—up and it's on, down and it's off. It can be operated with the arm or elbow should the hands be full. Supplied in both flush and surface types. Any finish desired.

**THE NEW HOT POINT WAFFLE IRON**—The means to delicious waffles, prepared electrically, without smoke or bother—right at the table. Equipped with double aluminum plates, baking entire waffle at one time without "flipping". Heating units are enclosed sheath wire type. Convenient handles, hinges, etc. insure ease of operation and cleaning.

## COAL PRICE TO REMAIN FAIR, SAYS HOOVER

Commerce Secretary Assumes Responsibility at Meeting With Operators.

WASHINGTON, May 31.—(By the Associated Press.)—Secretary Hoover today assumed the responsibility for fixing a reasonable price on spot coal during the continuance of the present coal strike.

Opening the conference here of union and non-union operators in the producing field, Hoover declared that any agreement between the operators looking toward the fixing of the price of coal, even though in the interest of the public, would be illegal. He asked, therefore, that the individual operator agree with them upon a reasonable price for coal in their respective districts.

**FAIR PRICE SOUGHT.**  
Hoover suggested the immediate appointment of committees representing each producing district to discuss with him upon a fair price for coal in their respective districts.

He also asked that these committees continue in existence after the termination of a fair price, to settling cases of unfair charges. He told the several hundred operators at the meeting that the production was now about 5,000,000 tons a week and consumption between 8,000,000 and 8,500,000, thus necessitating withdrawals from stock amounting to between 3,000,000 and 3,500,000 tons a week. Production will increase slightly as time goes on, he added.

Compromises today, Hoover said, ranged from about \$2.25 to \$3.50 a ton at the mine.

The public, he contended, should understand that the problem at hand is one of almost stupendous difficulty.

**DEPENDS ON CONDITIONS.**  
What a fair price for coal is depends upon conditions in each district, and where profiteering begins and ends is a question of definite fair price, determined upon facts and not upon theories, the secretary told the operators. There is, not, Hoover explained, a single share of law to enforce a fair price or prevent profiteering, and the law prohibits operators agreeing as to what a fair price may be.

"I propose to require through you as to the situation in various districts, and I will take the responsibility on my own back and will ask every operator to accept this basis in his own district," Hoover told the operators.

The agreement, he continued, would be between the operators and the secretary of commerce, and if an operator failed to live up to it, it would be upon his conscience.

## Republicans O. K. Senate Closure

WASHINGTON, May 31.—Republican senators today committed themselves to the movement designed to bring about amendment of the long-existing Senate rules permitting unlimited debate. By a vote of 32 to 1, the Republican conference decided to draft and pass a new closure rule.

## Morse Indictments Stand, Rules Court

WASHINGTON, May 31.—Chief Justice McGray of the District of Columbia Supreme Court today overruled motions to quash indictments against Charles W. Morse, New York banker, and eleven others charged with conspiracy and embezzlement in connection with Shipping Board contracts during the war.

LONDON, May 31.—Several American relief administration officials in Russia were killed when robbers derailed, wrecked and looted an American Relief Administration food train in Northern Caucasus, according to a Moscow despatch received here today via Copenhagen.

## New York Boy, 15, Freckle Champion

NEW YORK, May 31.—George Widdien, 15, won the freckle championship in contest with 5000 boys. So well had George employed his time that when judges looked him over they cut counting and awarded him the prize.

## TWO MEN HURT IN AUTO CRASH NEAR SAN JOSE

San Luis Obispo Men Are Hurlled From Auto After Collision at Hillsdale.

SAN JOSE, May 31.—George E. Woodbury and Carl S. Nelson, both of San Luis Obispo, were slightly injured south of here late yesterday when an automobile in which they were driving crashed with a second car driven by W. N. Nixon of 332 South Fourth street, San Jose.

The accident occurred near Hillsdale, a station south of here, when Nixon's machine darted into the state highway unannounced from a side road.

Woodbury, driving, attempted to avert a collision but was too late. His car struck the front of Nixon's, the crashing throwing the San Luis Obispo men's machine into a fence at the side of the highway. There the machine turned upon its side, throwing both Woodbury and Nelson out. Both sustained minor cuts and bruises but neither was seriously injured, later proceeding to this city.

## PROHIBITION ROW GOES TO CAPITAL

SAN FRANCISCO, May 31.—The disagreement between Robert H. McCormack, special assistant to the attorney general, engaged in the prosecution of liquor cases, and C. H. Wheeler, chief deputy prohibition enforcement officer, has been passed on to Washington for settlement and an effort is being made to bring about a settlement, according to an announcement made today before Federal Judge M. T. Dooling.

The citations against Wheeler, following his refusal to obey an order to deliver a seized automobile truck to Frank Gonzales, came up today for hearing. At the outset Judge Dooling said:

"This court has been informed that the present situation has been brought to the attention of the authorities at Washington and that the two parties are trying to get together for the purpose of bringing about a speedy adjustment."

Attorney Joseph Connolly inquired whether it would not be possible, pending a settlement of the dispute, to have the automobile returned to Gonzales. The court responded that while he appreciated Gonzales' position, he would not make any such order. McCormack stated that he would endeavor to confer with Wheeler and settle the matter to the satisfaction of all concerned.

The automobile truck was seized when John Garcia was arrested for transporting liquor into this city. He had borrowed Gonzales' truck.

## Japan's Navy Will Conform to Treaty

WASHINGTON, May 31.—Acting Secretary Roosevelt of the navy, responding to an inquiry as to Tokyo press despatches describing a new Japanese naval building program contemplating expenditure of \$280,000,000, was understood to have declared to the Senate naval committee today that so far as the Navy Department is concerned the program was in strict conformity with the arms conference naval treaty.

## 246 TRAINS TO STOP JAM IN SUBWAYS

NEW YORK, May 31.—The congestion on New York's subways was expected to soon become a thing of the past with the addition today by the Interborough rapid transit of 246 trains to its daily service. These additional trains will give about 100,000 more seats for passengers. Officials say that with other additional trains coming in the full much of the traffic jams will disappear.

## LABOR TEMPLE DAY AT NEPTUNE

One of the announced features for Labor Temple Day at Neptune bathing, swimming, and other events, will be a boxing match and also will be asked to referee a few ring contests.

The day's program will include bathing, swimming, and other events, foot races for men and women and other events.

E. S. Hurley is in charge of the day's activities. The outing is being given by the Oakland Labor Temple association. Full support of the day has been given by the San Francisco Labor Council and the San Francisco Building Trades Council. It is announced.

The proceeds will go to the fund for the new Oakland Labor Temple. The day's program is being planned by J. T. Roberts, chairman of the Labor Temple day committee.

The general arrangements are being attended to by Roberts, Hurley and William Spooner.

Among the well known girl swimmers who will compete in the aquatic events will be Harriet Roberts, Hilda Curtis, Rita Williams, Mildred Green, Ruth Sears and Ethel King.

The men to swim will include Bob Lancaster, Count Pistolesi, Leslie Joseph and Bert Coffin.

It is planned to receive concerts and news by radio all day. Another feature will be a juvenile review.

The sub-committees arranging the program and details of the celebration are:

Promotion, William A. Spooner, W. J. Moorehead, Charles Gurney, E. Hawkins and L. Smith; ticket sales, Thomas J. Roberts, Fred Cathlam, Gustavus, Fred B. Perry, James Ryan, B. Erickson and W. N. Cooley; prizes, Joseph A. Lloyd, Cyrus Cooley, John Crowley, E. C. Carter and James Shea.

## MAN KILLS WIFE, SON AND HIMSELF

NEW YORK, May 31 (By International News Service).—Crazed by jealousy of the love of his wife, a man today beheaded his 7-year-old son, William; killed his wife by slashing her throat; then severed his own jugular vein, and is dying in a hospital.

Before he died, Crummett nodded assent to police questions as to whether he had killed his wife and child in a blood-stained pen-knife which lay on the table.

A relative told the story of serious quarrels over the boy.

## War Appropriation Is \$333,972,000

WASHINGTON, May 31.—The annual war department appropriation bill, carrying \$333,972,000, was reported today to the Senate by its appropriations committee. The measure, as it is returned, is \$49,955,000 larger than as passed by the House, but approximately \$40,000,000 under the estimates for the coming year's expenditures.

For pay of enlisted men the measure appropriates \$60,951,000, sufficient for an average army of 133,000. "The proviso is made that the size of the army shall not exceed 140,000 except in emergency."

The appropriation for the office personnel, limited to an average of 12,500, totals \$25,230,000.

The House appropriations for these two items, the largest in the bill, were \$48,863,000 and \$26,936,000 respectively.

## Taft Will Survey Courts of England

WASHINGTON, May 31.—Chief Justice William Howard Taft of the supreme court, will leave this country about the middle of June for England, where he will spend several weeks in a survey of the English courts. It was announced today. The tour will be unofficial, Taft said. It is the first time that a chief justice has made such a trip during his term of office.

## Rancher's Neck Is Broken in Upset

SAN JOSE, May 31.—While driving his car around a sharp turn on the Martinez-Concord highway, at the city limits near Concord last evening, Mat Bigley, rancher, turned his machine over. Bigley suffered a broken neck and death occurred on the way to the Martinez hospital. First aid was given the injured man by Dr. F. P. Neff of Concord. The body will be shipped to Willits for burial.

JOS. MCGUINNESS, M. P. DIES. DUBLIN, May 31.—(By The Associated Press.)—Joseph McGuinness, member of the Imperial Parliament for the Southern Division of County Longford, died today. His election to Parliament in 1917, while he was serving a three-year sentence for his conviction with the Easter rebels of 1916, helped paved the way for the Sinn Fein's subsequent sweep of the country. He was a strong advocate of the Anglo-Irish treaty.

## FUTURE TRADING BILL REFRAMED BY SEN. CAPPER

New Act Submitted That Will Comply With Supreme Court Ruling.

WASHINGTON, May 31.—A new bill for regulation of future trading on grain exchanges, designed to meet a recent decision of the Supreme Court holding the present trading act inoperative in part, was introduced in the Senate today by Senator Capper, Republican of Kansas, chairman of the unofficial Senate agricultural bloc and author of the original act.

In presenting his new measure Capper said it had the support of the agricultural bloc and Secretary Wallace and others of the department of agriculture. It was referred to the agricultural committee.

**MAKES NEEDED CHANGES.**  
The bill is similar to the act declared inoperative by the Supreme Court except that its fundamental principle is based upon the power of Congress to regulate interstate commerce instead of the taxing power, which was the basis of the present law and which the Supreme Court held could not be exercised in that respect.

The bill provides for regulation of "contract markets" by the secretary of agriculture and for admission to grain exchanges provided by farmers' cooperative associations, the latter a provision opposed vigorously by the established boards of trade.

"Another important change," said Capper, in a statement explaining the new bill, "is the provision which substitutes regulation of the use of the mails and interstate commerce for the taxing provisions of the previous statute. A further provision not found in the preceding statute is designed to give the secretary of agriculture power to deal with the question of grades that may be delivered on contracts, premiums and discounts, inadequate elevator capacity and any other conditions that may have similar importance in relation to the prices and executions of contracts."

**OPPOSED BY EXCHANGES.**  
The grain exchanges have been bitterly opposed to the provision of the Capper-Tincher law, which compelled them to admit cooperative associations to membership.

The will of Mrs. Elmore August Boulet, well known in Oakland many years ago as head of a local private school, who died on April 6 at Biller sur Marne, France, was filed for probate today. The same time petition for letters of administration were filed by William J. Hayes of Menlo Park, named as administrator.

The estate, valued at \$15,000, is left to two nieces, Elmore and Norma Hillegas, 141 East Thirty-eighth street, Oakland.

In her will, which was written in English, Mrs. Boulet says she has elsewhere made provision for her nephew, George W. Hillegas. The will was written on May 1, 1913, at Neuilly sur Seine.

**Man Accuses Wife's Mother of Kidnaping**  
SAN FRANCISCO, May 31.—Mrs. Josephine M. Green, 37, Green street, has been charged with kidnaping, in a warrant sworn to yesterday by her son-in-law, Clarence de Bernard, 1332 Stockton street, before Police Judge Lyle T. Jacks. The complainant said that his mother-in-law kidnaped his ten-months-old baby, Margaret, Mrs. Tachis is said to have taken the child to New York. The Bernards were married in Oakland in 1909. Bernard said they were separated in May, this year. He also said that the mother turned the child over to Mrs. Tachis when he was ill in bed.

**U. S. Again Rejects Hague Invitation**  
BY UNITED PRESS. LEASED WIRE TO TRIBUNE. WASHINGTON, May 31.—The United States has rejected another invitation from the allies to participate in the forthcoming conference of the allies with Russia and Germany at The Hague. It was made known at the state department today.

The allied ambassadors here approached Secretary of State Hughes informally with the suggestion that this government delegate representatives to sit on the two Hague commissions on the ground that they are to deal with economic subjects in line with the desires of the United States.

**Chilean Rejection Reaches Peruvians**  
WASHINGTON, May 31.—(By the Associated Press.)—An unfavorable reply by Chile to the Peruvian proposal to arbitrate the sovereignty of Tanna-Arica understood to have been presented at today's joint session of the Chilean-Peruvian conference.

**FIRE IN NAPLES.**  
NAPLES, May 31 (By International News Service).—Fire in the warehouse district on the waterfront caused \$200,000 damage.

## DE MOLAY BOYS' BAND TO PLAY AT S. J. EXPOSITION

Record Crowds Continue to Attend Big Garden City Industrial Show.

SAN JOSE, May 31.—Special band concerts by the De Molay boys' crack local band will be added attractions on the afternoon and evening programs of the local 100 Per Cent Industrial Exposition today, according to announcements made this morning. The band, one of the largest of any such organizations in the west, has gained prominence by its recent brilliant performances, and the concert in the main exposition tent today and tonight are being keenly anticipated.

The fifth day of the great exposition got under way this afternoon, with record crowds passing through the turnstiles hour after hour. Yesterday's Memorial Day throngs set a new record for the four years of the exposition's existence, but the officials tonight were anticipating even greater crowds as the big show nears its finish next Sunday night.

The special stunt features of the Gates-Morris Aviation company, as scheduled for this afternoon and tonight, are expected to add greatly to the crowds, thrills galore being provided by the daring aerial experts and acrobats. To date these amazing day and night illuminated flights have been carried out without the slightest mishap and have revealed the aviators' claim, the splendid progress of the air game.

"Besides the tremendous number of exhibits in the great tents of the exposition, the numerous stunts and attractions on the joy zone continue to be one of the greatest drawing cards. Many thousands last night and early this afternoon jammed their way along the long line of amusements."

**PIONEER TEACHER WILL IS FILED**

The will of Mrs. Elmore August Boulet, well known in Oakland many years ago as head of a local private school, who died on April 6 at Biller sur Marne, France, was filed for probate today. The same time petition for letters of administration were filed by William J. Hayes of Menlo Park, named as administrator.

The estate, valued at \$15,000, is left to two nieces, Elmore and Norma Hillegas, 141 East Thirty-eighth street, Oakland.

## 'Lawyer-Hobo' Wins Freedom By Clever Plea

SAN JOSE, May 31.—Frank C. Thomas, transient, arrested several days ago in Santa Clara by Constable Thomas Maloney of that place, has earned for himself the title of "lawyer-hobo."

Taking into his own hands his defense on charges of having stolen two overcoats, the wanderer displayed to Judge Charles Thompson of Santa Clara a remarkable knowledge of law and the manner of pleading cases, with the result that the court rendered a verdict in favor of the prisoner, who is now at liberty.

Questioned concerning his knowledge of law Thomas was reticent, but stated that he had at one time studied law in an Ohio law school, which he named. He stated that he had practiced for a short time, but had fallen "victim of ill luck."

**WOMAN KILLED BY AUTO; BOY HELD**

SAN FRANCISCO, May 31.—Detectives this morning arrested Charles E. Bruecker, 18 years old, of 1462 Forty-eighth avenue, and charged him with driving away an automobile without offering assistance following an accident. The accusation follows the killing of Mrs. Emma Collier of 714 Turk street at Eighth and Market streets.

Prosper Ruter, who lives at the Grand Central hotel, was driving the machine which struck Mrs. Collier and Bruecker was a passenger. The car was driven off after the accident. Another automobile conveyed Mrs. Collier to the Central Emergency hospital, where she was pronounced dead on arrival. Later Ruter, an automobile salesman, surrendered himself at police headquarters. He was charged with manslaughter and with violating section 21 of the motor vehicle act.

**HOME IS DEDICATED.**  
SAN FRANCISCO, May 31.—The Salvation Army's new industrial home and social club at 376 Harrison street, was dedicated today. The building is of reinforced concrete and will replace the one that was burned down about a year ago. The new home cost about \$75,000 and is said to be especially equipped for the Salvation Army work among the unemployed men of the city.

The Russian soviet government is purchasing 20,000 tons of codfish from the New Foundland government.

## RIISING WATERS TAKE WHEAT CROP ON KINGS RIVER

12,000 Acres Are Flooded; the Total Loss Placed at \$200,000

HANFORD, May 31.—For the first time in six years, the lower bed of Tulare lake, one of the most fertile spots in the country, is flooded with water from Kings river, approximately 12,000 acres being covered. Six thousand acres of this is in grain crops this year. Fifteen hundred acres, partially in grain, was flooded late last night at an estimated loss of about \$300,000. This was the largest loss so far reported and brings the total season's flood damage up to about \$200,000, estimating on the basis of matured crops. The loss, however, is offset by the good that will be done by raising the water level in the district for subsequent years' production.

A survey of the entire flood district has just been completed by the Sentinel here and no fruit lands of any kind are threatened. The levees in all districts adjacent to young vineyards along the Lodi river are holding. North of the Kings river several levees have given way and several thousand acres of pasture land is under water.

## SHRINE COLORS TO GREET WEARY SONS OF DESERT

Decorations and Enchanted Arabia Villages Planned for S. F. Convention.

SAN FRANCISCO, May 31.—In keeping with the richly embroidered fezzes, turbans, burnouses, Morocco shoes and other Arabic apparel which will distinguish the thousands of gaily uniformed delegates to the Shrine's convention which will transform parts of San Francisco into so many enchanted Arabian cities—lifted, so to say, bodily from the pages of the Thousand-and-One-Nights.

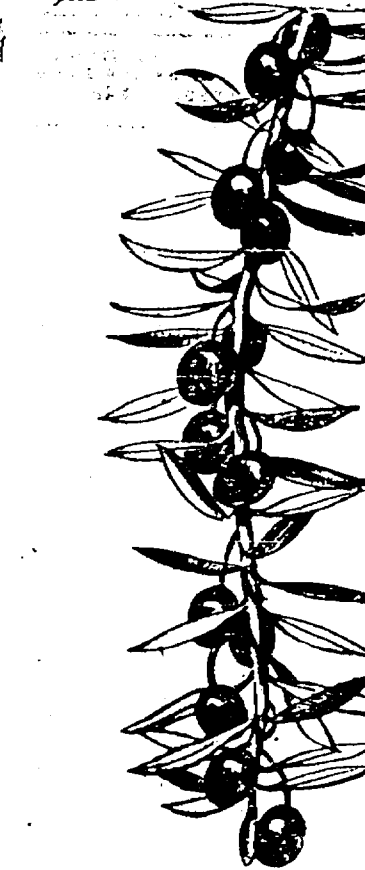

The committee, which is working under the direction of George Wahlgren, its chairman, has done away with such hackneyed attributes as triumphal arches, bunting, etc. Instead the decorative "out ensemble" is symbolic of the Shrine, its atmosphere and its history.

Market street, the Civic Center plaza, Union Square, the Embarcadero are all to be decorated with the models of camels, minarets, crescents, obelisks, scimitars, Arabian tents, palanquins and Moorish domes.

The ferry tower displays a huge Shrine emblem, and the Embarcadero is to have two large minarets. Another shrine emblem is tastefully arranged in front of the ferry tower. In a flower plot occupying the center of the street car loop, "The tower itself is to be draped in the Shrine colors."

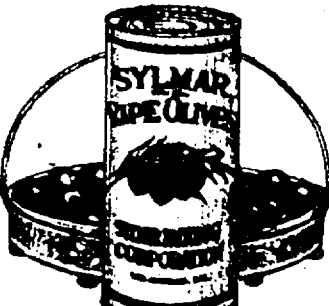

The Civic Center plaza is being transformed into an Arabian walled village of the days of the great Harun-Al-Rashid. Along Fulton street, between Hyde and Leavenworth, twenty kneeling camels will guard the approach to the village. The village itself will have a pavilion with glittering domes, battlements, walls and minarets in Oriental colors, obelisks with hieroglyphic decorations, and gorgeous silken tents. In addition there will be caupied flower, a fountain with attendants in costume. The balcony of the city hall will be transformed into a gaily colored throne.

## Twenty Giant Locomotives on Way From East for Use on Tehachapi, Sierra Grades

## Gangway for "Prosperity Special"

Twenty brand new giant locomotives, the largest ever constructed, are speeding toward Oakland to be put in use on steep grades by the Southern Pacific company.

## Largest Steam-Propelled Engines Being Delivered to Southern Pacific

The "Prosperity Special" is on its way.

This week will see the arrival here of twenty new locomotives, the last word in steam-propelled engines.

The locomotives are to be used by the Southern Pacific company, for whom they were constructed, on the high grades of the Tehachapi and the Sierras.

As the twenty giants of the rail left the Eddystone, Pa., plant of the Baldwin Locomotive company with impressive ceremonies, Samuel B. Vaulcain, the president, delivered an address prophesying prosperity.

The new engines are the largest ever constructed and the "Prosperity Special" is one of the most remarkable of its kind ever to cross the continent. The total order of the company is for 51.

## Mrs. Voorhies Tells Of Attack in Home

Mrs. Winifred Voorhies of Piedmont today described to a jury in Superior Judge George Samuel's court the attempted attack which Charles Howland, interior decorator, is alleged to have made upon her in her home at 42 Manor drive, Piedmont.

Mrs. Voorhies said that Howland, who was working in her house, came into her room where she was sewing, seized her and struck her several times in the face when she resisted. She said she finally frightened him away by throwing her slipper through a window pane and calling to a next-door neighbor.

Howland declared on the witness stand that he had been drinking when he attempted to attack Mrs. Voorhies and that he had again been drinking when he made his alleged confession to the police two days later.

## Parade Permit Is Held in Abeyance

As the result of a request for a parade permit June 3 in honor of Marcus Garvey, "President-general of the Universal Negro Improvement Association," Commissioner Frank Colbourn today requested Chief of Police Drew to meet with warning negro factions and see if a parade should be allowed or not. Some West Oakland citizens object to Garvey's parade and missionary work. They alleged that it is a collection plan for an "African Republic" at \$10 a citizen. Garvey's supporters, on the other hand, assert that his work is for the uplifting of the race. Representatives of both factions have laid the matter before Colbourn.

## WIFE KILLS DETECTIVE

## SMITH ANSWERS SUIT BROUGHT TO COLLECT \$245,871

Allegations in Suit Pending For Five Years Denied in Action Filed.

General denial of the allegations on which are based the suit of Mary Ellen Kibbe and Edmund J. Burkhardt against F. M. Smith and The United Properties company of California was made in the answer of Smith and the United Properties company, which was filed with County Clerk George Gross today. The answer is the latest step in an action which has been before the Alameda county courts for nearly five years on a suit by creditors to enforce a subscription contract.

The Kibbe-Burkhardt suit, filed August 2, 1917, alleges, briefly, that Mary Ellen Kibbe secured a judgment for \$15,345 against the United Properties company on July 9, 1917; that Edmund J. Burkhardt secured a judgment for \$111,052, and another for \$118,871 against the United Properties company on July 9, 1917, but when an effort was made to collect these judgments the United States marshal could find no property on which to apply the satisfaction.

The plaintiffs allege that on February 24, 1918, F. M. Smith offered to deliver to the United Properties company 75 per cent of the issued and outstanding capital stock of the Oakland Traction company and the Oakland and San Jose Consolidated Railway in return for the issuance to him of \$14,199,987 par value of common stock, \$10,647,149 of preferred stock and \$581,923 of convertible debentures of the United Properties Co. The stock and debentures of the United Properties Co. is alleged, were turned over to Smith by the United Properties company. It is further alleged, the 2636 shares of common and 18,663 shares of preferred stock of the Oakland Traction company and 12,275 shares of preferred stock of the San Francisco, Oakland and San Jose Consolidated Railway as agreed. Their suit seeks to compel Smith to make delivery of this stock in order that the plaintiffs may collect their judgments, to the amount of \$245,871, from the United Properties company.

## Widow in Court Will Not Tell Age

WASHINGTON, May 31.—Mrs. Charlotte Jane Isabella McDonald, widow of James McDonald, millionaire Standard Oil magnate, and who recently announced her engagement to marry Lord Huntley, a 74-year-old Scotch peer, was a witness today before Justice Hitz and a jury in the supreme court of the District of Columbia.

Mrs. McDonald is suing her stepson, James McDonald Jr., of San Francisco, for the return of \$5000 worth of household effects, which she claims her late husband sold to her five days before his death. The son denies Mrs. McDonald's claim, declaring the articles were left to him under the terms of his father's will.

Mrs. McDonald, when asked her age as a condition when witnesses are sworn, replied: "I am over 18." Justice Hitz sustained the right of the witness not to be required to give a more definite figure.

## Man Held Under State Motor Law

James Sherman is being held in the city prison pending a warrant charging him with driving an automobile while under the influence of liquor. He was arrested at 2 o'clock this morning at Thirteenth and East Twelfth streets by Policeman A. A. Page. ## Princess May Be Involved in Death Of Canadian Youth

MADRID, May 31.—(By Associated Press.)—Further interest developed today in the recent mysterious death of Yves Lefevre Beltefeuille, a prominent young Canadian, with the examination of an alleged Polish Princess, Nadia Wisniewska, in connection with his death. She asserted that she became acquainted with the Beltefeuille family in New York six years ago and that she renewed her friendship with the Canadian youth in Madrid last year. The coroner's inquest will be held June 7 and meanwhile the princess is under surveillance.

The Madrid newspapers today published long accounts of the Princess's life, asserting that her husband died suddenly in Paris, and thereafter she dissipated her fortune at Monte Carlo. According to the newspaper versions she became a spy during the war, was condemned to death in France, and escaped to Italy, through the influence of political friends.

In Italy, it was said, she became involved with a prominent member of the Italian nobility, who afterward died mysteriously. Soon after this she was condemned to death on a charge of espionage, but fled to Spain, where she became widely known in society circles. Her mysterious languages and it is difficult to ascertain her nationality, as she does not possess identification papers.

## House Votes Down War Graft Probe

WASHINGTON, May 31.—By a vote of 191 to 26, Representative Woodruff of Michigan, and Johnson, South Dakota, Republicans, lost out today in the final attempt to force the House to take action on their resolution for an investigation of alleged graft in prosecution of war grafters.

## CHOICE TREES CUT FOR USE DURING PAGEANT

BERKELEY, May 31.—Teachers and mothers at the John Muir school who last Saturday staged the annual pageant of school children depicting the arrival of John Muir in California, probably have some explaining to do to the Berkeley police.

Also J. S. Hines, 9 scenic way, San Francisco, is mourning the loss of six young eucalyptus trees of an especially fine variety from a lot at 30 Oak Ridge road in Claremont.

Hines, visiting his lot yesterday, found only stumps where there were formerly graceful trees. He drove post haste to the police station.

"I planted those trees myself a long time ago. I planned to build a house under them," was his plaint.

Officer Charles Penning proceeded with Hines to the scene of devastation. He conducted an inquiry among small boys of the neighborhood. From them he gleaned the information that the school children had cut down the trees for use as props for their pageant on Saturday.

A further investigation is being made today by the police before definite blame is fixed.

## Youth May Save Two Boys From Prison

Their youth may save Purnell Knudsen and Isaac Mikkelsen from having to face the criminal penitentiary sentences as the result of their alleged assault on a 17-year-old East Oakland girl. In order to determine whether the two should be tried in the criminal court, or certified to the juvenile court, Superior Judge Church today ordered that their parents should be called in to testify as to whether they were over or under 18 at the time of the alleged assault.

Their case was continued until June 2 for the taking of the necessary testimony.

## Memorial Day to Be Dedication Day

Announcement has been made by Felix Schreier, founder and organizer of the Sons and Daughters of Washington, that that organization will hereafter refer to Memorial Day as Dedication Day. Schreier made the announcement at the memorial exercises held last night at the American Institute, 568 Eighteenth street. He said the idea was that "the larger significance of the most solemn day of the nation should become universally known."

## Memorial Speaker's Overcoat Is Stolen

BERKELEY, May 31.—While Colonel Lucian Holbrook, commander of the First Artillery in France during the war and now stationed at the Presidio, was delivering the principal address at yesterday's Memorial Day exercises, under the auspices of Berkeley Post No. 7, American Legion, on the university campus, a thief stole his army overcoat and gloves.

## MURPHY VICTOR IN INDIANAPOLIS SPEEDWAY RACE

Mix-up in Timing Throws Doubt on Record as First Given.

INDIANAPOLIS, May 31 (By The Associated Press).—Jimmy Murphy, the smiling, boyish Los Angeles youth, today holds the distinction of being the only driver in the world to win the premier automobile race of two continents—the French Grand Prix and the 500-mile race over the Indianapolis motor speedway here yesterday.

This is Murphy's second year as a driver, as he only graduated from the grade of mechanic a two years ago. By a strange coincidence, it was Captain Eddie Rickenbacker who gave Murphy the checkered flag in token of victory yesterday—the same Murphy who rode beside Rickenbacker as a mechanic in the race here six years ago.

Some of the glory and also some of the prize money that Murphy was generally believed to have gained yesterday slipped away over night, however. Murphy was credited with holding the lead throughout the race and winning all of the prizes offered for leadership in the various laps of the contest, but speedway officials early today announced that there had been some misjudgments and that apparent winner Harry Hartz, another Los Angeles racer, who finished second, had held the lead during part of the race and was entitled to some of the lap prizes.

ERROR IN TIMING. There was also some question as to the authenticity of Murphy's record time which had been announced at 5:17:30.70, which is 16 minutes better than the record established by Ralph de Palma in winning the event here in 1915. De Palma's time then was 5:33:55.51.

Much confusion existed among the judges and timers at the 500-mile yesterday and the announcement was made that Hartz had gone into first place. This announcement was later withdrawn, but when the official tabulation was started at the close of the race the possibility that Murphy might have been displaced as leader for a time again brought forward. Officials said they expected to complete the tabulation some time today. It was not expected it would make any changes in the standing of the winners, but it might affect Murphy's record and also the distribution of lap prizes, which amount to \$50 for each lap.

Murphy was given remarkable cooperation by his pit men. He made only three stops to change tires and replenish his fuel tanks. On his third stop gasoline was dumped into the tanks and a rear wheel was changed in 25 seconds. On previous stops his assistants dumped in oil and gas and changed two front wheels in 28 seconds. Murphy knew just what his car was capable of doing and he pushed it to the limit, always maintaining a record-breaking speed.

HARTZ' RECORD. Hartz, who finished second, also is a former mechanic. He drove into second place shortly after the sixtieth mile and from then on to the finish he gave Murphy a desperate fight. His time was 5:20:34.50, an average of 82.54 miles per hour, which also was far in advance of the record.

Eddie Hearne, a veteran racer, piloted a French car to third place in 5:22:26.04 for an average of 83.4 miles an hour, while Ralph de Palma, one of the favorites, was fourth in 5:31:04.65, an average of 80.61 miles an hour.

Ora Haibe was fifth in 5:31:13.45, an average of 80.56 miles an hour. Jerry Wonderlich was sixth in 5:37:52.81, an average of 78.79 miles an hour. I. P. Peterson finished seventh in 5:40:55.44, an average of 77.59 miles per hour.

Eighth place went to Ira Vail in 5:50:07.42, an average of 75.65 miles an hour. Tom Alley was ninth in 5:57:44.19, an average of 73.89 miles an hour. Joe Thomas finished tenth in 6:05:01.47 for an average of 72.13 miles an hour.

REWARDS FOR VICTORS. As winner of the event Murphy will receive approximately \$35,000. Twenty thousand dollars was awarded first place and \$30,000 as lap prize money. In addition automobile accessory companies provided cash prizes which will bring Murphy's total to the \$35,000 mark. Hartz got \$10,000 for finishing second, Hearne, in third place, \$5,000; De Palma, in fourth place, \$2,500; Haibe, \$3,000; Wonderlich, \$2,200; Peterson, \$1,800; Vail, \$1,600; Alley, \$1,500 and Thomas, \$1,400.

According to the speedway officials there were 135,000 paid admissions, the largest crowd that ever witnessed a race at the Indianapolis course. Although official figures were lacking, the total receipts are expected to reach the \$500,000 mark. The general admission was \$2, which totaled \$270,000, and besides this, there were extra charges for grandstand, automobile parking spaces and infield privileges.

Murphy was the only driver injured during the race, although two cars were in smashups. It was all the fault of an inflated rubber cushion, which exploded while Murphy was tearing along over the brick course. After the race was over Murphy climbed out of his car and limped painfully to a seat.

"What's the matter, Jimmy?" was asked. He smiled and said: "I had one of those air cushions in the seat of my car. Well, it bursted somewhere along the line and I rode the bare boards until the finish of the race. That was the longest part of the grind for me."

## CHURCH TO USE PHONE TO GAIN ATTENDANCE

SANTA MONICA, Calif., May 31.—The telephone will be used in direct appeal to increase attendance at the First Presbyterian church here, according to an announcement by the pastor, Rev. W. H. Cornett.

Those members who have not reached church by the time for the services to begin will receive a summons by telephone, the pastor stated. The Men's Brotherhood of the church agreed to support the pastor in this method of increasing attendance. Its members will act as telephone trunk officers.

## Man Hit by Auto Suffers Broken Leg

Ed Smith was treated at the Emergency hospital for a compound fracture of the left leg which he received when he was run down by an automobile. The accident occurred last night at East Twelfth street and Twenty-fourth avenue. The driver of the machine stopped and offered to take the injured man to the hospital. When Smith asked him to wait until he got the names of several people who witnessed the accident the driver of the car drove off. Smith was picked up in a series of passing automobile and taken to the hospital.

## Four to One Odds Against You

The chances are four to one you will contract Pyorrhea after you pass the age of forty unless you take proper precautions.

Thousands younger also suffer from this unpleasant disorder of the mouth and gums.

Pyorrhea starts with tender, bleeding gums.

That is the way Nature warns you of your danger. Heed that warning!

If you ignore it, you may pay the penalty by loss of your teeth and serious illness.

Pyorrhea works fast. It loosens the teeth in their sockets until they fall out or must be pulled. It forms pus pockets at the roots of the teeth and feeds disease germs into the system.

Don't trifle with Pyorrhea.

At the first danger signal, see your dentist and start using Forhan's For the Gums.

Forhan's, if used consistently and used in time, will prevent Pyorrhea or check its course.

It is the time-tested formula of R. J. Forhan, D. D. S.

Use Forhan's regularly as a dentifrice. It keeps the teeth and gums in a clean, healthy condition and wards off Pyorrhea.

Don't wait until tomorrow. Four out of five contract Pyorrhea because they wait too long. 35c and 60c tubes at your druggist's.

## NEW CRATERS IN HAWAII JOIN IN LAVA OUTBURSTS

Many Pits, Dormant Years, Renew Activity; Field Still Spreading.

HONOLULU, T. H., May 31 (By The Associated Press).—The unusual volcanic activity in the region of Kilauea on the island of Hawaii, which has stirred long dormant craters to fresh activity, continued yesterday to manifest itself in eruptions from other pits in that area. The old craters of Napau and Panau are erupting steam and smoke and emitting a hissing sound as the lava rises against the walls of the pits, burning the vegetation that has grown there in the years since their last activity. The inner walls of the craters today were masses of flame. Napau and Panau are four and three miles respectively from the old crater of Makena, which on Monday roused itself from 80 years of slumber in a spectacular outburst. Today the lava flow had broken out in a series of molten fountains from the walls of the crater, nine of which were

pouring fiery sprays into the old pit. Mahaopuhi has a circumference of about three miles. The country surrounding Makena is almost uninhabited, but there is a settlement at Panau approximately on the line the lava would take to the sea. If the eruption attained great volume, the eruption attained great volume.

## Women of Middle Age

THE critical stage of a woman's life usually comes between the years of 45 and 55, and is often beset with annoying symptoms such as nervousness irritability, melancholia, heat flashes which produce headache and dizziness, and a sense of suffocation. Guard your health carefully, for if this period be passed over safely, many years of perfect health may be enjoyed.

Lydia E. Pinkham's Vegetable Compound is especially adapted to help women through this crisis. It exercises a restorative influence, tones and strengthens the system, and assists nature in the long weeks and months covering this period. It is prepared from medicinal roots and herbs, and contains no harmful drugs or narcotics. Its value is proven by many such letters as these:

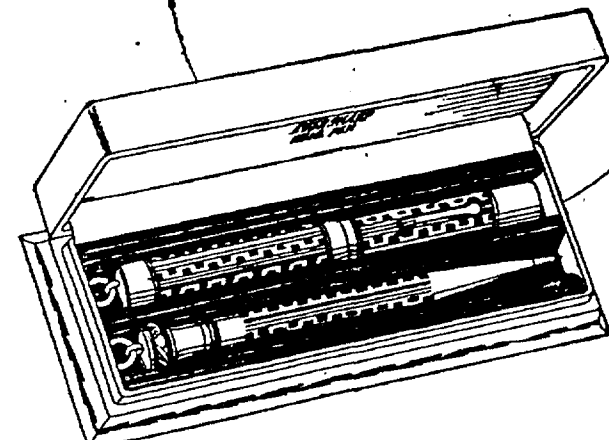

Denver, Colo.—"I have taken Lydia E. Pinkham's Vegetable Compound and I can not tell you the good it has done me. It is good for young and old and I always keep a bottle of it in the house, for I am at that time of life when it calls for it. My husband saw your ad. in the papers and said, 'You have taken everything you can think of, now I want you to take Lydia E. Pinkham's Vegetable Compound.' So I let him get it, and I soon felt better. I took about six bottles. I keep house and do all my own work and work out by the day and feel fine now. I tell everyone about the Vegetable Compound, for so many of my friends thought I would not get well."—Mrs. R. J. LINTON, 1850 West 33rd Ave., Denver, Colo.

Metropolis, Ill.—"I have taken Lydia E. Pinkham's Vegetable Compound and it is all it claims to be and has benefited me wonderfully. I had been sick for eight months with a trouble which confined me to my bed and was only able to be up part of the time, when I was advised by a friend, Mrs. Smith, to try Lydia E. Pinkham's Vegetable Compound and Liver Pills. I was so much benefited by the use of these medicines that I was able to be up and about in two weeks. I was at the Change of Life when I began taking the medicines and I passed over that time without any trouble. Now I am hale and hearty and do all my housework."—Mrs. EMMA CULVER, 705 E. 7th St., Metropolis, Ill.

Letters like the above do influence women to try

## CHILE TO SEEK ARMS REDUCTION

SANTIAGO, Chile, May 31.—(By Associated Press.)—Chile hopes to bring about a general proportionate reduction in both naval and land armaments throughout South America through action at the Pan American congress to be held here next March. A communication suggesting inclusion of the subject in the agenda of the congress has been sent to the various nations to be represented.

The note points to the success of the armament limitation program at the Washington conference and to the example set by Argentina and Chile in reaching an understanding.

### British Lawyer, Who Slew Wife, Executed

LONDON, May 31. (By the Associated Press.)—Major Herbert Rowse Armstrong, a leading Welsh solicitor, who was convicted last month on a charge of poisoning his wife, was executed in the Gloucester jail today. He is the first member of the English bar to be executed for murder. Major Armstrong, originally was arrested on a charge of attempting to poison Oswald Martin, a fellow-solicitor, but went to trial on the capital charge after "a" exhumation of his wife's body and the discovery that she had been poisoned.

If you see it in The TRIBUNE tell them so.

## It wouldn't be the same...

"If every woman on the street  
Should make a loaf of bread,  
They wouldn't be the same at all,"  
The Master Baker said.  
"Some loaves would burn and some would fall  
And some would not be good,  
Though each one used the self-same flour  
And did the best she could."

And there's no secret about making  
Clicquot Club Ginger Ale. We tell  
what we put in it. Other manufacturers  
know all the ingredients we  
use. They can buy most of them.

But they don't make Clicquot Club—  
any more than a woman with good flour  
and a recipe can make bread  
that tastes like her neighbor's  
bread made with the same  
flour and recipe.

Ask your grocer to send you  
a case of Clicquot Club. Keep  
a few bottles on ice or in a  
cold place. Serve it any time  
to anyone. They all like it.

## Saturday's Performances at Auditorium to Include "The Idol's Eye."

If you haven't heard all about it  
by now it is certainly time you did.  
What? Why, The TRIBUNE's big  
pageant and "Joy and Mirth" story  
which is to be held at the Auditorium  
theater Saturday morning,  
June 3. There have been pageants  
before, scores of them, but they  
have been all make-believe compared  
to what is in store for members  
of the Aunt Elsie and 60,000  
Club, Associated Charities, and  
West Oakland Home and Ladies  
Relief Society.

The name of the pageant is  
"Birds and Flowers in Springtime  
Play," written and copyrighted by  
Beverly Swabey, and coached and  
directed by Miss Emma Gage. In  
the play are many old time favorites  
with some new and clever  
performers. Over forty in all are  
to take part.

Preceding the play will be a  
short vaudeville performance  
opened up by The TRIBUNE's  
vaudeville Orchestra, consisting of  
the Nissau family, Evelyn, Fannie,  
Jack and Harry.

After the pageant comes the  
"Joy and Mirth" story, which will  
be held at the south end of the  
Auditorium theater. This is to be a  
fine event and you cannot afford  
to miss it.

Only those who are members of  
the Aunt Elsie and 60,000 Clubs,  
and those who have invitations  
will be allowed to attend, and  
just as a little tip, it would be  
advisable to bring a light lunch, as  
after the "Joy and Mirth" story is  
over you will have about an hour  
to get some fresh air and roam  
around Lake Merritt.

Then comes another big surprise  
at 2:15 sharp. The Ferris Har-  
man company is going to stage an-  
other free show called "The Idol's  
Eye," which has been played to  
large audiences all this week. This  
is a special event arranged by The  
Oakland TRIBUNE and Ferris  
Hartman for The TRIBUNE Kid-  
dies and only those who attend the  
morning show will be allowed to  
come to the afternoon show, after  
they have been checked up by  
those in charge.

The doors of the Auditorium  
theater open at 10 o'clock sharp  
and shows start at 10:15. Be on  
hand and secure a good seat.

Every boy and girl in the East-  
bay community is entitled to be-  
come a member of the famous  
Aunt Elsie and 60,000 Clubs. Write  
a letter to Aunt Elsie and find out  
how easy it is to join.

## Here Are Experts' Eye Safety Rules

LOS ANGELES, May 31.—Dr.  
Charles Sheard, of Southbridge,  
Mass., in Los Angeles this week to  
attend the convention of the Cal-  
ifornia State Association of Opto-  
metrists and the Western Congress  
of Optometry, made public the fol-  
lowing "common sense" rules for  
the care of the eyes:

"Do not read or work with a  
bright light either natural or arti-  
ficial, in front of the face or in the  
direct field of vision."

"Let your eyes and your body  
sleep at night."

"Do not read while reclining."

"Exercise your eyes a few times  
a day by turning them up, down,  
right and left, in a rhythmic man-  
ner, holding the head still."

"Do not put anything into your  
eyes except pure water, unless upon  
the advice of a competent physi-  
cian."

"If you wear glasses, clean them  
several times a day."

In a proclamation issued by  
Governor Stephens the period of  
May 29 to June 2 was proclaimed  
"Better Vision week."

## Forms First Boy Scout Troop in China

CHICAGO, May 31.—Credit for  
organizing the first Boy Scout troop  
in China is claimed by Boone uni-  
versity, a Protestant Episcopal in-  
stitution at Wuchang, a representa-  
tive of which, Rev. Alfred A. Gil-  
man, has arrived in the country.  
In the Scout troops of the school  
the boys of official and well-to-do  
families are taught to use their  
hands in fire drills, bridge and hut  
making, fence and tree climbing,  
cooking and tent making, accord-  
ing to a statement from the de-  
partment of missions of the Pro-  
testant Episcopal church.

If you see it in The TRIBUNE tell  
them so.

## S. P. MEN HOPE TO AVOID LOSS OF CENTRAL LINE

### Leaders Look to Federal Rail Board to Escape Actual Unscrambling.

In the absence of President Wil-  
liam Sproule of the Southern Pa-  
cific railroad no formal statement  
regarding the ordered dissolution  
of joint ownership and control of  
that line and the Central Pacific  
is being made.

It is apparent, however, from  
unofficial interviews and the atti-  
tude of railroadmen that no actual  
"unscrambling" of the lines is  
anticipated.

An order from the Interstate  
Commerce Commission under the  
provisions of the Esch-Cummings  
act is expected to provide the  
authority for a continuance of op-  
eration along lines practically  
identical with the present.

### RAIL MEN GIVE VIEWS.

In the meantime the officials are  
pointing out the dire consequences  
which might follow the separation  
of the road if, in every case, the  
extreme interpretation of orders is  
carried out. These possible conse-  
quences are expected to bring pro-  
test from the territories threatened  
with impaired rail service and to  
furnish a backing to the appeal to  
the Commerce Commission.

Railroadmen say the Union Pa-  
cific is looked upon as the logical  
purchaser of the Central Pacific  
if the deal goes through, and there  
is some talk of a new company  
being organized to own the Cen-  
tral Pacific as a competitive con-  
cern.

Reliance is being placed on the  
help of fruit growers and agricul-  
turalists in petitioning the com-  
mission for a continuation of ser-  
vice similar to the present.

### FRUIT MEN'S AID.

Half of the 15,000 cars and many  
large refrigerator plants used by  
the Pacific Fruit Express Com-  
pany in moving fresh fruit and  
produce over the Central Pacific  
lines are owned by the Southern  
Pacific and none by the Central  
Pacific. The total investment  
reaches something like \$60,000,000.

Recently the Southern Pacific or-  
dered \$300,000 new cars at a cost  
of \$13,000,000 to meet the increased  
needs of the growers. Under the  
unscrambling order the Central

## BANDIT KILLED. ANOTHER SHOT IN POLICE TRAP

HAMMOND, Ind., May 31.—A  
bandit who gave the name of  
Howard Fowler is in a hospital  
here perhaps fatally wounded,  
and another is dead as a result  
of the pair's attempt to hold up  
members of the Hammond police  
department on the highway be-  
tween here and Gary.

Setting a trap for the men who  
have been robbing motorists  
along the road, the two police-  
men, disguised as a "spooning  
couple," sat in an automobile  
until the bandits approached the  
car and ordered the occupants to  
hold up their hands. The police  
opened fire, killing Lloyd Parisey.  
Fowler was shot through the  
right lung.

### TRIBUTE PAID TO AUTHOR.

NEW ROCHELLE, N. Y., May  
31.—The memory of Thomas Paine,  
author of "The Age of Reason,"  
was honored today in exercises  
held under the auspices of the  
Thomas Paine National Historical  
Association on the site of what was  
formerly his home here.

Pacific will have no interest in  
these cars and the entire icing and  
marketing plan will be disarranged  
in a vital manner.

The resultant confusion of  
handling these crops cannot but  
add to the cost of transportation  
and slow down the running time  
of the refrigerator cars at junction  
points, railroadmen claimed.

According to latest estimates  
compiled by the Southern Pacific  
the company in conjunction with  
the Central Pacific operates 2125  
locomotives, 391 of which are  
owned by the latter railway. Of  
2416 passenger cars, the Central  
Pacific owns 306, and of 51,000  
freight cars, 7200 are the property  
of the Central Pacific.

## CAPTAIN CUTTLE WINS DERBY; U.S. JOCKEYS BEATEN

### Tamar, Owned by Viscount Astor, Takes Second Place.

By CHARLES McCANN,  
United Press Staff Correspondent.  
EPSON, Eng., May 31.—Cap-  
tain Cuttle, Lord Woolavington's  
crack three-year-old, today won  
the great Epson derby from a  
large field of starters.

Tamar, owned by Viscount  
Astor, was second, and B. Walker's  
Craigangover was third.

St. Louis, favorite, ridden by  
the American jockey, Archibald,  
and Pondoland, ridden by O'Neil,  
another American, were unplaced.

Steve Donohue, rated the pre-  
mier English jockey, rode the  
winner, which started second  
favorite.

Captain Cuttle is by Hurry On  
out of Bellavista. His victory was  
a popular one with the 25,000  
people crowded on the Downs to  
witness the race because thousands  
had backed Steve Donohue, the  
jockey, to win from the Ameri-  
can riders over the difficult Ep-  
son course.

### BOTTOMLEY, IN PRISON, MISSES FIRST DERBY.

LONDON, May 31.—Today's  
derby was the first in thirty years  
that Horatio Bottomley, M. P.,  
now in jail for swindles involving

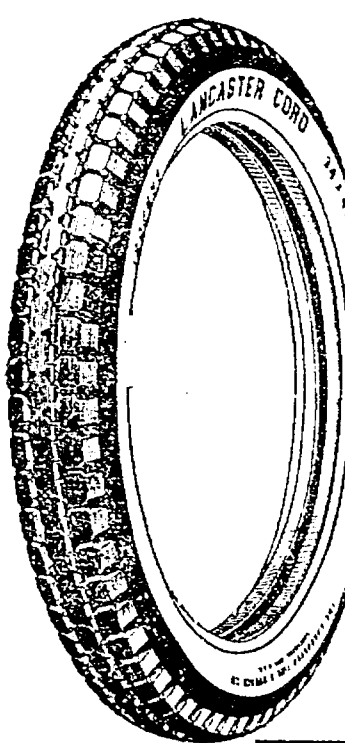

150,000 pounds, has missed at-  
tending.  
Bottomley annually moved that  
the House of Commons adjourn  
for the day and make a "great na-  
tional festival." His motion was  
always rejected, after which most  
members would go to Epsom and  
see the race.

Say you saw it in The TRIBUNE. \$22

## Tire Competition ~ Good, Bad and Indifferent

THE average American  
was raised on the idea  
that the more people  
who competed for his  
trade the better off he was.

Like many good ideas, it has  
several sides.

They all show themselves clearly  
in the tire business.

There are tires which prefer to  
compete largely on a price basis.  
Believing that the public is more  
interested in the dollars and cents  
they pay than in the worth of  
what they get.

On the other hand, U. S. Royal  
Cords believe differently.

And car-owners who use Royal  
Cords have a plus feeling which  
they get both from actual experi-  
ence, and because they realize the  
integrity of the manufacturer.

People don't think of Royal  
Cords as high-priced tires. They  
think of them as better tires.

In the man who knows what a good,  
faithful product the Royal Cord is, the  
tire that makes price its main argument  
hardly arouses more than a little  
curiosity.

So which is better?

A tire that thinks a man has no  
judgment beyond his pocket-book?

Or a tire like the U. S. Royal Cord  
— which credits the public with  
the instinct for quality, and the  
sense to find out true  
economy?

Prices on United States Passenger  
Car Tires and Tubes, effective  
May 8th, are not subject to  
war-tax, the war-tax hav-  
ing been included.

## THE STATISTICAL STORY.

In its April bulletin giving in condensed form the crop and industry returns for 1921 the California Development Association has rendered a useful service in presenting to the country comprehensive information concerning the wealth and sources of income of this State. It has produced something which also should interest every citizen of California. This is one instance where statistics should not be "dry reading." We therefore paraphrase quite liberally from the development association's bulletin:

California's grand total value of all crops for 1921 is \$362,690,000, compared with \$489,110,000 in 1920 and \$561,074,000 in 1919. In 1919 California ranked sixth in the Union in the total value of all crops (\$587,601,000), being exceeded by Texas, Iowa, Illinois, Ohio and Kansas. In 1920 she rose to second place with a total crop production worth \$503,791,000, which was only \$207,384,000 behind Texas. In 1921 she decreased the lead carried by Texas to \$73,952,000, and more than quadrupled her lead over Illinois, with a total crop production for 1921 of \$350,519,000. The decrease in value of previous years was largely due to reduced prices.

The total production of all fruit crops, says the Crop Reporting Service of the Bureau of Markets and the State Department of Agriculture, was 2,416,950 tons, valued to the growers at \$181,488,000. This was a decrease over the bumper crops of 1920 and 1919, when the production approximated 2,617,963 tons, valued at \$232,557,000, and 2,635,070 tons, valued at \$241,628,000, respectively. Allocating the crop values according to the three principal districts, Southern California produces annual valuation of \$200,055,721 from its 8,211,425 acres of farm land; the San Joaquin Valley \$178,311,639 from 7,000,689 acres, and the Sacramento Valley \$102,074,167 from 3,780,110 acres.

California leads in the production of barley, beans, cantaloupes, almonds, pears, peaches, walnuts, oranges, lemons, grapefruit, vegetables, prunes, honey, canned tuna and fruit tree nurseries. It produces nearly half the nation's supply of peaches; is third in apple production, with only Washington and New York ahead; supplies 27.2% of the entire production of pears; ranks fourth in the production of sugar beets, contributing 14% of the production of the United States.

Every phase of live-stock raising can be profitably carried on somewhere in this great and diversified State. The value of range herds in California for 1921 is given as \$151,000,000; value of grazing lands, \$250,000,000; value of cattle thereon, \$400,000,000; annual number of cattle grazed, 1,250,000; number of animals slaughtered yearly, 327,330 steers, 212,168 cows, 21,627 calves, 7,717 bulls and stags. This does not include thousands of head shipped to middle-western markets alive in railroad lots.

In spite of the decreased number of sheep clipped, California ranked fourth in the Union with a wool production of some 11,818,000 pounds. The total number of hogs in the State is 973,000.

A report of the Associated Dairyman of California states that the dairy industry was worth to the State over \$20,152,000; represents an investment of \$220,000,000 and gives employment to more than 100,000 on ranches and in creameries, condenseries, by products plants, etc. Of the 550,000 dairy cows inspected yearly in California, 475,000 are north of the Tehachapi. The number of dairies in the State is given as 25,000. In the production of butter, Stanislaus County still maintains her lead of the past five years, but Humboldt County again outranks Imperial for second honors. Over 65,000 tons of cheese were made in the State during the year past; Stanislaus, Monterey and Humboldt Counties all producing over 1,000,000 pounds each. While prices received by poultry producers were slightly less

low than of 1920, the shipments to the east exceeded all years.

California produced a seventh of the nation's honey in 1921, the yield of approximately 10,000,000 being valued at \$3,000,000. There are 700,000 bee colonies in the State.

The 200 mills cutting California white and sugar pine in 1921 showed a decrease of 63 mills operative in 1920, as well as the number of employees in 1921, being one thousand less than the men working the year before. The estimated cut for 1921 rendered by the California White and Sugar Pine Manufacturers Association is 356,300,000 board feet of California white pine and 98,700,000 of sugar pine. In 1921 the redwood lumber business began to assume normal proportions, and the production for that period was \$57,000,000 board feet, the shipments valued at 115,300,000 board feet, and orders were received for 136,000,000 board feet.

The value of all mineral production in California last year, \$241,856,910, with gold amounting to \$15,800,000 and petroleum to \$182,000,000. Last year established a new record for oil, the output being 114,519,924 barrels.

California leads the nation in many other respects—in sardine and tuna fishing, in propagation of fresh water fish, in irrigation projects, in highway mileage and existing new building projects.

The story of California at present as written in statistics is an unusually live and impressive one. An adept in the use of fine phrases could do no better than these figures.

## TARIFF AND MINERS' SUPPLIES.

Senator Oddie of Nevada, generally giving cordial support to the Republican majority in putting through the new tariff schedule at this session of Congress, is strongly opposed to a tariff on one commodity of imports. That is cyanide. Senator Oddie made a lengthy—and an able—speech last week in opposition to the proposed import duty on cyanide and so far his arguments have not been seriously disputed.

To the general contention of the supporters of the tariff schedule as it now stands that it is proper to keep alive an American industry, Senator Oddie has replied that the American cyanide manufacturing industry is a monopoly, of largely German ownership; and that the same monopolizing company is agent for the German cyanide industry. This claim is supported by uncontested evidence submitted to the Senate. Senator Oddie further argues that to the gold and silver miners of Nevada cyanide comprises from thirty to fifty percent of the total cost of mineral production and he does not believe that the mining industry should be obliged to pay a tax, even a slight one, on its supplies.

Unless the advocates of a tariff on imported cyanide can produce stronger reasons for their stand than they so far have presented the demand of the Nevada senator should prevail. It has been claimed that the proposed tariff will not protect any American industrial interest, but instead will strengthen a monopoly held by foreign citizens and capital already strongly entrenched in this country. This being true, there is no adequate reason for the proposed import duty on cyanide.

On the other hand, there is a strong reason, the facts being as stated above, why the mining industry in the United States should be permitted to get their supplies as cheaply as possible. The smaller the cost of production of gold and silver the larger will be the production of these metals, the healthier will be the prosperity of the mining industry of the Western and Pacific Coast States.

There seems to be a division of sentiment among western senators on this question. There should be unanimity of action.

Cantaloupe production in Southern California, Florida and Texas has a prospect of 16,862 cars of 350 crates each in the forecast made by the Department of Agriculture, and this is a gain of 39 percent over the harvest of 12,090 cars in 1921. Nearly all of these cantaloupes are produced in Southern California where the forecast crop is 16,241 cars, leaving 357 cars to Texas and 261 cars to Florida.

## FERTILIZER AND MUSCLE SHOALS.

Congress seems to be again exercising itself considerably to learn whether in fact fertilizer can be cheaply manufactured at Muscle Shoals. It has recently been announced a well known manufacturer—and undoubtedly a good friend of Henry Ford—on the subject and heard from him his belief that fertilizers for our farmers can be produced at Muscle Shoals to sell probably at a figure much lower than the present market prices. As to that—except on the basis of heavy national subsidy—there is room for the utmost doubt. Certainly little or nothing has been placed before Congress which is likely to lead careful and unbiased students to suppose that Muscle Shoals could ever become a fertilizer producing center in the absence of aid from the taxpayer.

But what has all this to do with the so-called Ford proposal? Whether Mr. Ford would find the manufacture of fertilizer or any other commodity or product at the site in question profitable is a question for him to decide for himself. The terms of his proposal certainly seem to indicate that he is fully capable of looking after his own interests. To what use he would put the plant—how long as he abides by the laws of the land—again his own concern. It is the business of Congress to get as large a return for the costly "war baby" at Muscle Shoals as it can. It appears to be certain that it cannot avoid loss of some of the money there, but that is no reason why any individual or corporation should be made a present of the plant and be said to run it under the promise that a part of the subsidy thus granted will be passed on to the farmer in the form of cheap fertilizer.—New York Journal of Commerce.

## NOTES and COMMENT

The Oregonian tells how a reformer asked a question: "The attack on motion pictures made by the committee on temperance and moral reform in its report earlier in the day gave only a hint of the storm which burst when Dr. Brighfield, of the sub-committee on movies, took the platform. The California moral crusader described a scene from a picture now showing in Des Moines in which a woman, stooping to pick something from the ground, is bitten on the breast by a viper. The hero, undaunted by convention, tears off her bodice and sucks the poison from the wound. 'Why, if the motion picture men's intentions are so moral, did the director not have the viper bite the woman on the wrist?' asked Dr. Brighfield."

Story of an immigrant, from the Salt Lake Tribune: "A year ago a Polish immigrant named Dabinsky arrived in the United States. He knew not a word of the English language when he reached New York, but he set about acquiring knowledge of the history and government of the country of which he proposed to become a citizen. He attended night schools when he had done with his day's work. Twelve months after his arrival Dabinsky was awarded the bronze medal offered by the National Society of Colonial Dames for the best poetic essay of the year."

The Chicago Tribune gives advice to wild flower desecrators: "We offer herewith a mild suggestion to persons who, while enjoying a country outing, are unable to differentiate between the beauties of a protected field of wild flowers and the desolation of a field which has been stripped and left to weeds and grass. If they must pick something which does not belong to them, let them try picking dandelions. The flower of that ubiquitous weed, we are told, though we haven't tried it, forms the base of a potent, pleasing and inspiring beverage. The leaves, we know by experience, can form one of the most wholesome and appetizing vegetable dishes known to modern cookery. It is the spinach with a kick."

The Marysville Appeal compares "here" with Russia: "Those New Jersey fire-fighters who quit their job and left a forest burning because they didn't like their pay are a curious object for study. 'This is not Russia,' they said, when it was explained that they couldn't be paid any more, because their pay was fixed by State law. We can't be bluffed into working if we don't want to. If it had been Russia, very likely nobody would have cared enough about the matter to fight the fire. They're letting things burn in Russia."

Gasoline has been going up lately, and the government wants to know why. So do several million car owners. It is naturally supposed, when the price of any standard commodity starts climbing that there is a scarcity, actual or impending. Yet the Federal Bureau of Mines reports that the national stock of gasoline on hand the first of April was \$54,000,000 gallons, far more than ever before at that time of year.—Marysville Appeal.

Among the most interesting sights in the '49 parades were the old-time fire engines, worked by hand—the kind that in early days were operated by volunteer fire companies. ### AT THE STATION.

Down at the station they used to wait,  
All lined up at the railroad gate—  
Mother and father and cousin Jane,  
Searching the track for the coming train.

Grandpa and Grandma and all the pack,  
Waiting to welcome a wanderer back.

Then never one of us went away  
In the summer time for a few weeks' stay,  
But what he was sure of, a rousing din  
And a greeting warm when the train pulled in.

Oldest to youngest would be in  
To welcome him at the station gate.

I've stood on the line myself and know  
The splendid thrill of that "fine hello!"  
And the laughter glad and the rush to be  
The first of that anxious flock to see.

The wanderer quitting the railroad train,  
Safe and sound in the town again.

I've been the traveler, too, and I  
Have seen the light in the mother's eye,  
And the father's smile, and the brother's grin,  
And his rush to carry my suitcase in.

And I know the depth of the joy it means  
To play a part in those station scenes.

Now the line has thinned and  
There's few to wait,  
To watch for me at the railroad gate.

But I know some day in the distant years  
When my soul in the other realm appears,  
The oldest to youngest once more  
I'll see  
Eagerly waiting to welcome me.

### ART OF INDIANS RESTORED.

An ancient art in the Northwest has been restored. In the days before the coming of the white man the Indians obtained new wood things by the use of a device called the "Cascade" mountain from which they made bows and arrows.

Wesley Evans, of Itoumpan, Wash., now makes the same pilgrimages to the woods and selects sticks which he shapes into archery shafts. He began the work as a pastime but the fame of his wood articles spread and now he is compelled to employ help in his shop.

He has a ready market for the long bow and arrows in the Northwest and Canada, while many sets go to Europe, South America and Australia.—Minneapolis Journal.

### A FUTILE ADVENTURE.

Democrats with ambitions of their own who propose to make capital by a hostile invasion of the Lodge territory are likely to have a hard time in the contest with prestige diminished rather than increased by the encounter. One may believe that the Senate would be improved by the elimination of Lodge, but that need not blind one to the fact that the particular adventure of Democratic leaders have a particular candidate they want disposed of before the 1921 preliminaries get under way. Let them send him to Massachusetts with a commission to "get" Lodge.—Cleveland Plain Dealer, Ind. Dem.

# About YOUR HEALTH

What "Fibrositis" Is and Some Ways to Win Relief.

By ROYAL S. COPELAND, M. D.,  
Commissioner of Health,  
New York City.

Once in a while you will meet an old man who is a regular barometer. He can tell when the weather is going to change. His aches and pains are as definite as the variations in the barometric pressure.

The common term to describe this condition is "chronic muscular rheumatism." Old sailors and fishermen, street cleaners, bus drivers and others who are exposed habitually to the elements are likely to have this trouble.

Covering each of our muscles is a sheath of tough, fibrous, but flexible membrane. It fits the bundle of muscle tissue as smoothly as a tightly-fitting glove hugs the hand. It has been likened to the bark on a tree.

This fibrous sheath is liable to damage and inflammation. When the muscle covering is so inflamed the ailment is called "fibrositis." Chronic muscular rheumatism is really chronic fibrositis, or obstinate inflammation of the muscle sheath.

Before a muscle is attached to a bone the fibrous covering or sheath becomes thickened into what is called a tendon. In the ankle and wrist there is little muscle tissue. All the muscles have had their ends replaced by the firm and strong fibrous substance I have described.

When a spot of inflammation appears there is gradual extension until the whole covering, and, finally, the terminal tendons are involved. Fibrositis is a painful thing. It results in such tenderness that the slightest movement causes great discomfort.

There are special forms of fibrositis, depending on the location of the inflammation. It may attack one or more muscles of the neck.

Did you ever have a stiff neck? I can remember two or three attacks, and I assure you it is far from pleasant. This is a form of fibrositis, and it may result in permanent "wry-neck." The muscle seems to become shorter than its fellow, and the head is held to one side to avoid the pain which follows when the muscle is used.

"Neurodynia" is another form in which the muscles between the ribs are involved. Breathing and coughing cause pain.

Exposure to wet and cold, straining from lifting or stooping—these are common causes of fibrositis. Sitting in a draft of air or sudden chilling of the body may be followed by the symptoms of this disturbance.

Complete rest of the affected part will promote comfort and shorten the attack. To this end, strapping with adhesive plaster will aid. Firm bandaging helps.

Warm clothing should be worn by persons subject to fibrositis. Needless to say, exposure to cold and wet should be avoided.

# THE REALTORS ARE COMING!!!

By Oakland Real Estate Board

Realtors from more than 200 leading cities of the United States and Canada, the most representative and progressive men of their profession, are to be entertained in Oakland, Alameda and Berkeley Sunday afternoon, as guest of citizens of the East Bay Cities. The occasion is the first of a series of such visits to be made into Northern California districts by the delegates attending the National Real Estate Convention in San Francisco which opened this morning.

By automobile caravan the visitors will be shown the beauty spots of the entire East Bay Community, the industrial districts, commercial centers, parks and residential areas. They will be given a Spanish barbecue at Joaquin Miller Heights, high on the shoulder of Redwood Peak from which they will view the great panorama which inspired the Poet of the Sierras to his greatest flights of literary effort. They will be taken over the Skyline Boulevard, through the campus of the University of California and regaled with a half-hour of music at the Greek Theater.

It is to be a day illustrative of our World-famed California hospitality and an occasion which will long be cherished as an outstanding event in each one's memory of the trip to California.

It is to be a day in which each realtor will become convinced that, next to his own home town, the East Bay Community is the most desirable spot in the world.

Being business men of vision and appreciation of civic advantages, each will leave convinced of the commercial and industrial future of the city and will so advise the many for whom he may later be called upon to sell homes and lands for those who yield to the longing, almost universal in the hearts of easterners, to end their days in California.

East Bay Realtors will keep "open house" on Sunday, will proudly show their city to appreciative guests and will make many pleasant and profitable friendships among the most prominent men of their profession in the world.

## WELCOME, REALTORS!

Peppin-Built Homes.

Realtors at the convention interested in home building are cordially invited to inspect the Peppin Homes under construction in various parts of Oakland. Their artistry, quality of construction, up-to-date features and price will be a revelation to you. Call at our office and we will drive you around the city we love and show you what we are doing, have done, and will do.

1433 Franklin Street.

I have two corner bungalows and garages. They have mahogany panels, oak floors, wall beds, tile sinks and mantels, breakfast nooks, kitchen full of cupboards, etc.

The prices of these houses are \$4300 and \$4400. I will take as low as \$300 and \$40 a month, or will take a good lot as first payment on one or both of them, or will trade both of them along with some good second Deeds of Trust and cash for apartment house or flats.

Anyone having a good clear lot can get a house on it without any cash. Call and see me. I also make building loans any place in Oakland or Berkeley.

# TRIBUNE LEAGUE GIVE CREDIT FOR DEVELOPING KAMM

## BABE RUTH CLAIMS JOE SLUMP IS PREVENTING HIM FROM GETTING USUAL QUOTA OF HOMERS

### COMISKEY PAYS BIG MONEY FOR WM. KAMM, REFUSES DICK KERR

Charley Graham Comments on Kamm and Other Tribune League Boys.

By EDDIE MURPHY.

Who discovered Willie Kamm, the \$125,000 baseball peach? So far no less than a dozen have claimed the honor and it promises to become a great sport throughout baseball circles. Now that Kamm has been sold for the above figure to the Chicago White Sox, it is only right that more than one would try to claim the discovery of the young Seal who is today the talk of the baseball world. Charley Graham, former manager of the Seals, is the one who signed Willie to a contract and he is the one who ought to know who put him on the trail of Kamm. Graham came down from Sacramento to take up the job as Seal manager and all he heard about was Willie Kamm. Fans and players had seen Willie play in the TRIBUNE league and at Golden Gate park. Graham says that Strub, president of the Seals, is the one who told him he should sign Kamm up. The Seal president, according to Graham, had seen Kamm play and believed that he would be a wonder. So Graham followed the tip and went out and signed the lad who has developed into the highest priced player in the game.

Graham stated yesterday that the TRIBUNE Midwinter League is entitled to a lot of credit for success of Willie Kamm in baseball. He knew that Willie was playing in the TRIBUNE League, and was out to see several games to see Willie play. But Graham signed Kamm just a couple of days before seeing the young fellow play for the first time at San Leandro. When Graham saw Willie in action against the C. L. Best Tractors, he was so impressed that he had not followed a wrong tip by signing Kamm. In speaking of the game in which he saw Kamm for the first time, Graham said he never saw a finer lot of young and promising ball players on two ball teams as there were on the Tractors and Timekeepers. He remembered seeing such players as Gene Valla, "Seacup" Christensen, Johnny Kerr, Gene Caldera, Andy Vargas, Roncke and "Pat" Anthon, who are all now in professional ball. When shown a clipping yesterday of the first game in which he saw Willie Kamm play ball in the TRIBUNE League, Graham turned to President McGraw and told him quite a little about the promising players who had been in that game and how many of them have since broken into organized ball.

### And Comiskey Passed Up Kerr for \$1000.

It is hard for many of the ball fans around the bay to make themselves believe that the San Francisco Club, who are getting as much as \$100,000 in cash and two ball players valued at \$25,000 for Kamm. Even some of the players in the league cannot picture in their mind the act of Charles Comiskey parting with that much money for one ball player. They cannot see it because Comiskey, in their opinion, was never any too keen at paying big prices for ball players. However, the owners of the San Francisco club are not bashful about wanting to show the papers on which the sale was made. Between them and Danny Long, Pacific Coast scout for the White Sox, as soon as the check of payment arrives from Chicago, they will also show it.

Comiskey must have changed quite a bit in the last few months, and his purchase of Kamm for such a fat amount makes one wonder why it is that he could ever pass up his star pitcher, Dick Kerr, for the sake of one thousand dollars. It is said that Comiskey's refusal to add just one thousand dollars to Kerr's contract is what kept Kerr out of the White Sox. Out Kerr, the White Sox must have.

### L. A. Gets Even Break in Games With Leaders

LOS ANGELES, May 31.—(Elmer Ponder, the Angels' pitching beauty, was in his usual good form in yesterday morning and blanked the Vernon Tigers 7 to 0 in the opening game of the series. He allowed but four hits, while his teammates landed on Jesse Doyle for twelve hits, one being a homer by Charley Dell, who got three hits altogether. Lindmore also got three hits.

In the afternoon game the Tigers got revenge, but they had to battle twelve innings for it. They took the long end of a 2 to 1 score in a game featured by a duel between Ray Oliver of the Angels, and "Lefty" Thomas of the Angels. Excellent fielding featured this game. The winning run was put over on a single by Ray French, two infield outs and a single by Hughes High.

### Oaks Win and Lose in Games With S. F. Nine

Arlett Registers His Eleventh Win, While Krause Meets With a Defeat.

Duz Arlett, the Oaks' star right-hander, has his eleventh victory in his credit, and Southpaw Harry Krause has another defeat as a result of the two games played yesterday between the Oaks and Seals at Recreation Park in San Francisco. Arlett beat the Seals in the morning contest before a crowd that did not number more than 3000. The Seals did their scoring off two in the first inning, but with two in, Kamm drew a walk and Bert Ellison batted a ball over the right center fence for a home run. The Seals then scored three more runs to score after the hit but it was too much for them in the well-known pinch. In the ninth inning the Seals almost pulled the game out of the fire at the fielding, but a single by Arlett, who went to third on Compton's single. Then Walsh hit to Kopp for a free Compton for the last out.

The Oaks scored their first one in the second when Brubaker doubled, was sacrificed by Kopp and Koeber was an infield out. They then scored three more runs to score after the hit but it was too much for them in the well-known pinch. In the ninth inning the Seals almost pulled the game out of the fire at the fielding, but a single by Arlett, who went to third on Compton's single. Then Walsh hit to Kopp for a free Compton for the last out.

Then Walsh hit to Kopp for a free Compton for the last out.

The Oaks scored their first one in the second when Brubaker doubled, was sacrificed by Kopp and Koeber was an infield out. They then scored three more runs to score after the hit but it was too much for them in the well-known pinch. In the ninth inning the Seals almost pulled the game out of the fire at the fielding, but a single by Arlett, who went to third on Compton's single. Then Walsh hit to Kopp for a free Compton for the last out.

### Beavers Stage 2 Wild Games Against Bees

PORTLAND, May 31.—The Portland Beavers and Salt Lake Bees staged two wild ball games here yesterday. The Beavers scored two runs in the ninth inning of the first game to register a 13 to 11 win. The visitors scored all five runs in three innings, getting five in the fourth, one in the fifth, and eight and one in the ninth. Frank Brazil hit two homers, while McCann and Poole hit one each, for the Beavers.

The afternoon game wound up with a score of 9 to 6. This game was also featured by heavy hitting. Hughes High hit a homer for the locals. Justin Peters got three hits in each game for the Senators.

### COASTERS IN THE MAJORS

The Yankees won the first and lost the second game to the Athletics, Bobby Meusel hit a single in the first game and DeWormer was a pinch hitter in the second game and failed to deliver.

Ruth and Ward hit homers for the Yankees in the second game. Chicago White Sox defeated Cleveland 4 to 0 and 7 to 6.

Hits by Mulligan and Ernie Johnson in the ninth won the second game for the White Sox.

Harry Hooper hit a triple in the morning and two singles in the afternoon. Johnson got three hits in the two games, while Shelly got one and Mulligan two.

Guisto did not take part in any of the games for the Indians.

Allan Sotherton started on the hill for the Indians and was batted out in the sixth.

Pennock started in the box for the Red Sox and was batted out by the Senators who won two ball games.

Peckinpaugh got one hit in the first game and went hitless in the second. He handled eleven as the first game without a hit, and had seven chances in the second game without a boot.

The Detroit Tigers lost the first game to St. Louis, 2 to 1, and won the second 6 to 5. Oldham and Leary pitched the first game for the Tigers, the latter getting the defeat. The game went sixteen innings, Oldham pitching fourteen and one-third. Oldham hit a double, while Bobby Jones hit a pair of singles. Bassie also got two hits, while Cutshaw and Hanes hit one each. Bert Cole played center in place of Harry Holman who was suspended by Ban Johnson. Cole went hitless, so the Tigers have a good alibi for the defeat.

Howard Ehmke and Oldham worked on the mound in the second game. Ehmke getting credit for the win. Hanes, Cutshaw and Ehmke each hit two safe ones, while Bassie and Jones went hitless.

**Oven Construction.**

Every woman wants a cool kitchen in summer. Next thing is to determine how one can have this without the expense of an inefficient heater. The gas range is the answer. In most homes, but there are a few, the gas ranges, and the electric range is the one that gives the best service for the least expense. Now, the ESTATE Gas Range is the one that every housewife should investigate before she buys. I would speak very urgently to the Blue Bride, Little Bride, and wish to thank your new adventure.

**Fish a Seasonable Dish.**

Fish in hot weather is very necessary to the health of the body and does not tax the digestive organs, when we are trying to get energy in eating. It is available in a variety of accompaniments. Peerless Potato Chips. They are served light and add just the touch of variety sometimes needed. It is so appetizing. Peerless Potato chips are peeled by electric machinery and all the outside is cut off, hand, sliced by machinery all the same. Cold water to keep them from becoming soggy. Then they are fried, whirled in a centrifugal dryer, baked in the best salad oil, drained in a centrifugal dryer, and packed in gallons of Peerless Potato chips to make four pounds. When you use the Peerless Potato chips in your clean, white containers for picnics, you may be sure that they are made under as sanitary conditions as you would use at home.

**Drink Lots of Water.**

Drink water, lots of water, and

do not drink too much pure water. Air and air are the two things most essential to animal existence. But air must be pure to be healthful. You stop to realize that the human body is four-fifths water; you wonder we need so much to drink. It is known that the body is from 11% to 14% of water. The cells are three-fourths water. The blood is from 80% to 85% of water; is to seven-eighths water; 91% of the gastric juice, 98% of the urine, and 99% of the saliva made up of water. To you the nature of pure water is not new. Milk, but a very important substance, is made up of 87% of water. Umbra Spring Water for drink—purpose, and drink lots of it. You may not know that the rest is taken care of in that respect.

## A Tribute—With One Reservation

A distinguished member of the Little Rock bar was notable for two things: His capacity for chambering food, red liquor and his ability to speak eloquently at short notice upon any conceivable subject. Oratorically, he was even as the rock which Moses smote—one cue, one suggestion, one invitation and from him there would pour a glittering, noble stream of language. One night at a banquet in his home city the toastmaster conspired with certain of the guests to play a trick upon this talented gentleman. In fact, I believe a wager was laid.

The plot was launched early in the evening when he was informed that, contrary to the local custom, he would not be called upon for any remarks. Then privately, a waiter was instructed to station himself behind the chair of Colonel Doolove—that being the orator's name—with orders to see to it that the Colonel's toddy glass was replenished as often as he might empty it. So well did the waiter obey his orders that by the time the hour for the speech-making rolled around the Colonel appeared to be almost in a state of coma. The toastmaster felt that the moment had come for springing his surprise. Perhaps I should have stated earlier that the bet was to the effect that there was at least one toast to which the Colonel, drunk or sober, could never respond with fitting words.

With a confident wink at some of his co-conspirators the toastmaster arose and said:

"In view of the fact that one of the guests of honor has disappointed us tonight, and in order that this feast of reason and flow of soul may properly be rounded out, I am going to take the liberty of calling upon one whose name does not appear on the post-prandial program. I shall ask our distinguished friend, Colonel Doolove, to favor us with a few remarks in his inimitable style. I ask him now to speak to the toast—water."

Groggily the Colonel rose in his place. With difficulty he fixed his wavering vision upon the company and then without further hesitation delivered himself of the following:

"Mr. Toastmaster and Gentlemen, I speak tonight of water. What visions does that word conjure up! What delectable thoughts does it bring to the contemplative mind. Water, I maintain, is the most beneficent, the most benign and the most beautiful of all the elements with which a generous Creator has endowed this mundane sphere—"

"Is water beautiful?" I ask of the rolling tides which, in obedience to the command of the Almighty, ebb and flow at their ordained times, now retreating, now advancing, upon the wave-kissed beach. I ask of the oceans which bring to us the freighted argosies of other climes. I ask of the rivers which bear upon their currents the commerce of nations, making possible communication and intercourse between peoples. Yes, verily, water is beautiful."

"Is water benign?" Consider the dews which freshen the flowers of the field and make glad and glorious the summer morn. Consider the rains which descend upon the parched and arid desert, causing fragrant blossom to burgeon where before there was but sand and waste. Consider the harnessed power of dashing streams which turn the wheels and give impetus to applied industry. Consider these things and then dare to say water is not benign!"

"Is water beautiful? The answer is found in impetuous Niagara. It is found in the roaring cataract, in the parking brook, in the racing mountain torrent and upon the bosom of the sheltered lake illumined with the glorious colors of the sinking sun, and reflecting, as a mirror, every shifting play of radiance from the skies, every dancing frond of the lofty evergreen caressed by the breezes of the evening. It is found in the teardrop of the mother as she bids her son go forth to fight for his imperiled country."

"Never, while man has speech, is it to be gainsaid that water is beautiful, that it is benign, that it is beautiful. But, gentlemen, as a beverage it is a total failure!"

TRIBUNE CLUB'S  
RADIO WORKSHOP  
TO OPEN FRIDAYAll Members to Have Access  
to Use of Tools by Show-  
ing Cards.

The TRIBUNE'S workshop, which will be for the use of all who are members of the The Oakland TRIBUNE Radio Club, will be thrown open on Friday at noon. The shop is at 2208 Broadway, in the rear of the new store of the Standard Radio Electric Company. It is being equipped with vices and other apparatus needed for the drilling of panels and for the assembling of radio sets. All necessary tools will be provided.

Any member of The TRIBUNE Radio Club who has not the proper place or the right kind of tools for doing his own work at home is invited to bring his work to the shop. By presenting his pocket membership card he may borrow from the Standard Radio and Electric Company any tools he desires. Upon receiving the tools he will sign for them and will then be held responsible for their return after he is through using them. Famed Singer To Be  
Heard On Wireless

Maria Partridge Price of San Francisco, whose singing brought a tribute from Mrs. Schumann-Heink, will sing tomorrow afternoon from the Rockridge radio station between 3:30 and 4:30. Miss Helen McClory will accompany Miss Price and play several solos on the piano. Among the selections Miss Price will sing will be "When the Roses Bloom," "None but the Lonely Heart," "In the Boat," and others.

How to Make Your  
Advertising Pay

Sound merchandising demands that every sale should be more than a mere selling of goods. The merchant should also "sell" his business. By so doing he makes the casual buyer a steady customer, and in this way builds up his business on a solid foundation. Similarly, the regular advertisers who use the Classified Columns to sell their goods should make sure that each of their want ads interests the readers not only in the particular thing advertised, but also in their businesses themselves.

Read the following series to see how this plan could be worked out by a real estate broker who is concentrating on a row of six homes in North Oakland:

NO. 1  
North Oakland For  
Commuters

Six 5- and 6-room bungalows just completed. Hardwood floors, large closets, built-in features, garages; one block from S. P. and Key Route, three blocks from a fine school.

Lots 35x110—just the right size. Prices from \$3900 to \$4300. Terms 15% down, balance like rent.

It will pay you to come early, because the high reputation of the houses we sell is firmly established. Ten years of square dealing with thousands of satisfied clients is the best proof of the quality of the property we sell and the character of the service we give.

Courteous representatives will be on the premises all day today.

Six of these bungalows were placed on sale last week. Two have been sold already. Over one hundred people came to see them the first day. This was a gratifying testimonial to the reputation we have built up by the years of honorable service.

LESSON NO. 68.  
Points to Remember.  
(Copyright by Edward M. Davis.)  
(All Rights Reserved by United Feature Syndicate. Reproduction Forbidden.)

REMEMBER THAT  
Discharging the storage battery to a point of exhaustion tends to cause sulphation of the plates and shortens the useful life of the battery.

Telephone receivers are delicate instruments and your scientifically inclined friend who places his little finger in the hole of the receiver cap in order to feel the diaphragm may injure the diaphragm and lessen the sensitivity of the receivers.

Condenser knobs should be turned slowly and not "twirled." Careless manipulation of the knobs may cause the movable plates to hit the stops at either end of the scale and result in bent plates and short circuits.

The receiving set is not better than the poorest connection in it. A single loose contact in any part of the receiving system may render the entire set inoperative.

The negative or minus side of the plate of "B" battery should never be connected to the plate of the vacuum tube. Unless the positive or plus side of the battery is connected to the plate, no signals will be heard in the telephone receiver.

The plate battery should never be connected to the terminals of the receiving set. "A" battery, "B" battery, or "filament," this would be liable to burn out the filaments of the vacuum tubes.

Vacuum tubes have a certain maximum life when the filament current is of the proper value. If the rheostat in the filament circuit is turned too far allowing the rated current to be exceeded, the life of the tube is greatly reduced.

Telephone receivers of high resistance are employed in radio receiving circuits. This is because the currents which actuate the receivers are usually feeble and it is

necessary to use a larger number of turns of wire on the magnets in order to obtain sufficient magnetic flux to vibrate the diaphragm. In order to get this large number of turns into a small space and as near the iron core as possible, very fine wire is used which results in a high resistance winding. Telephone receivers could be wound with resistance wire to the point of absolute uselessness and the number of turns of wire greatly reduced, but such a receiver would be absolutely worthless.

For the best results when using two pairs of telephone receivers on the same receiving set, the receivers should have the same resistance and should preferably be of the same make and type. The two headsets should be connected in series.

A simple buzzer is convenient in adjusting a crystal detector to a position of maximum sensitivity.

VARIED PROGRAM  
BROADCAST BY  
KZM POPULARPhone Calls Thank Tribune  
for Interesting Entertainment Last Night.

An address by Adjutant C. Stanley Wood of Oakland Post, American Legion, to gold star mothers, the singing of Hazel Carlson Wood and several harmonica numbers rendered by John T. Brown composed the TRIBUNE'S radio entertainment broadcast last night from KZM. Many listeners in took the trouble to call by telephone and thank The TRIBUNE for the splendid program.

Last night's program, however, was shortened by the failure of three of the stars of the Ferris Hartman-Paul Steidort Opera Company to arrive at the broadcast station on time, due to a misunderstanding of the exact time when The TRIBUNE went on the air. The artists expressed their regrets to the radio audience and asked that their future concert be postponed.

Hazel Carlson Wood, who is new to The TRIBUNE'S radio audience, pleased everyone with her unusual rendition of the song "Somewhere a Voice Is Calling." "A Perfect Day," and "Keep On Hopin'." She is now a member of the Community Players' club, and was formerly with the Steinert choir, and has appeared at several of the leading theaters on the Pacific Coast. Her voice, which has developed rapidly during the past year, is pronounced as unusual.

Brown and his harmonica pleased everyone as usual. There were several requests by telephone for certain numbers. One of these was from a friend of Brown's in Berkeley, who asked that taps be played on the harmonica. This request was granted. Brown expressed his regrets, however, at having brought with him last night the poorest of his two instruments and declared that it was impossible to get the best out of the harmonica he brought by mistake.

The address to the gold star mothers was then made by Adjutant Wood. He told of the activities of the Legion throughout the country in its endeavor yesterday to honor the dead, and of the great sacrifices made by those who died.

**WOMAN WANDERER HOME.**  
SANTA ANA, May 31.—Mrs. Lola Strong, who was missing in the Santa Ana canyon in early a nude condition Saturday of last week, today was at the home of her father, W. H. Strong. She had been at the hospital here since Sunday evening for observation as to her sanity. Her mind has cleared some but she is unable to tell how she got to the canyon.

FUGITIVE FROM  
OAKLAND LANDS  
IN POLICE NETJohn Hauffman, Who Took  
'French Leave' From City  
Prison Is Captured.

John Hauffman, who escaped from the city prison here with Eugene Teddy on Monday evening, was recaptured today in Stockton, where he was attempting to pawn some tools in a second-hand shop.

News of the capture was received by the local authorities and Hauffman will be brought back to continue his sentence for petty larceny. He told the stockton authorities that he was pawning the tools he stole before his arrest in Oakland.

Chief of Police James T. Drew is investigating the circumstances surrounding the escape of the two men, who walked unpunished through the gates of the city prison on the top floor of the city hall and reached the street by a private elevator.

Teddy, who was serving a sentence for violation of the narcotic act, was a turnkey in the city prison and had obtained a key to the private elevator. He was recaptured on the day of his escape in this city.

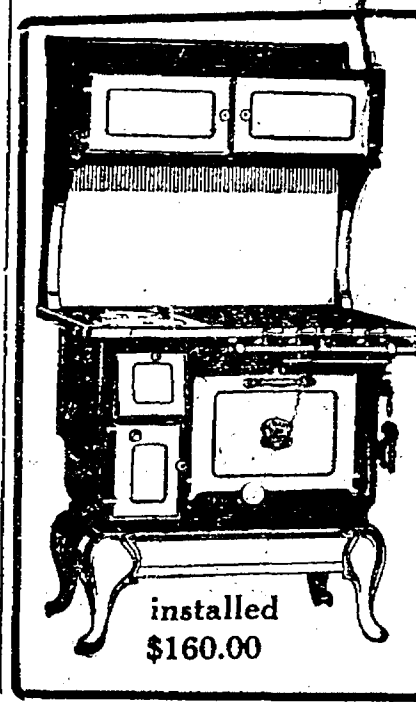

According to the Stockton police Hauffman arrived there last night and attempted to pawn the tools this morning. He told them he had cached the tools in this city and dug them up after he and Teddy effected their escape.

Water in the automobile radiator should be at a temperature of about 170 degrees Fahrenheit.

Launch Man's Arm  
Pierced by Anchor

ALAMEDA, May 31.—Gus Ekburg, 1807 Elm street, had his right arm pierced by the flukes of an anchor as he was fending off a launch in a collision on San Francisco bay yesterday. The anchor point pierced the arm to the bone. Ekburg reported at Lincoln park and was sent to the emergency hospital by Miss Roberta Lyon.

Ekburg was in a launch in which the engine broke down. While attempting to repair it another launch bore down on the disabled craft. Seeing that a collision was imminent Ekburg climbed to the bow of his boat and attempted to fend the approaching launch off with his hands. Its speed was too great and he was jammed against the side of his craft at a point where the anchor hung. His arm was forced onto the point of the fluke, which

Pastor Pays Honor  
To Alameda's Dead

ALAMEDA, May 31.—High tribune was paid to the memory of the departed heroes of Alameda by the Rev. D. O. Colgrove of the First Methodist church at the memorial services of Alameda Post, American Legion, last night. The meeting was well attended by members of the post, the Women's Auxiliary, Veterans of Foreign Wars, Spanish War Veterans and Alamedans. The introductory remarks were made by Post Commander Halvor Hauch. Songs were given by Miss J. D. Spratt, accompanied by Miss Christie. The ceremonies were concluded by the playing of "Tags" by William Degan.

# OLDFIELD WINS

in

## "Battle of Tires"

at Indianapolis

## Special Telegraphic Despatch from the Indianapolis Speedway, May 30

Jimmy Murphy wins five-hundred-mile international sweepstakes, average speed 94.48 miles per hour, on Oldfield Tires. Harry Hartz, second, average speed 93.54 per hour, on Oldfield Tires. Eight of the ten cars to finish in the money were Oldfield equipped. Murphy's time fastest ever made in this event, breaking track record by nearly five miles per hour.

## Third Straight Victory for Oldfield Tires

Consider this latest Oldfield achievement—the official test conducted by Mayor Kemp of Wichita, Kan., on behalf of a group of automotive dealers, when—

Four Oldfield Cord Tires on a Studebaker car covered 34,525 miles over Kansas winter roads, without a single tire change. Mayor Kemp has made affidavit to this wonderful tire mileage record along with other features of the test, including oil and gasoline economy.

Another example of Oldfield's road endurance under severe conditions was—

The French Grand Prix, Europe's greatest race classic, where Oldfield Tires carried the winner safely and surely over 325 miles of rough, rocky country roads—the first time in history that American tires have won this event.

Races are won by skilled drivers at terrific speed. You will never put your tires to such a test. But the fact that virtually all racing drivers will trust no other tires but Oldfields is convincing evidence of that tire's inbuilt stamina and endurance.

You can enjoy this same safety and service by having your nearest dealer equip your car with Oldfield Cords at a cost no higher than you pay for other standard makes.

Sixty-one Branch Houses and dealers everywhere throughout the United States distribute Oldfield Tires.

1922 Records Made on

Each one of these advertisements does more than interest the reader in the particular property described. It also interests him in the real estate firm. This has two results. First, when the reader goes to the property he is in a favorable frame of mind, which makes it easier to sell to him. Secondly, if the houses advertised are not just what he is looking for, he will be more likely to want to see what other property the company has to offer.
